Index of Authors

Note. Entries marked with an asterisk (*) refer to communications made in title only.
Entires marked with a section mark (§) refer to contributions to Symposia.
Small roman numerals refer to pages in *Proceedings of the Biochemical Society.*

ABRAHAM, E. P. *see* BERRIDGE, N. J. 529

ALDRIDGE, W. N. & DAVISON, A. N. The inhibition of erythrocyte cholinesterase by tri-esters of phosphoric acid. 2. Diethyl *p*-nitrophenyl thionphosphate (E 605) and analogues 663

ALEXANDER, P., FOX, M., STACEY, K. A. & SMITH, L. F. The reactivity of radiomimetic compounds. 1. Cross-linking of proteins 177

ANDERSON, A. B. The direct determination of nitrogen in protein fractions separated by electrophoresis in filter paper x

ANNISON, E. F. & MORGAN, W. T. J. Studies in immunochemistry. 11. The isolation and properties of the human blood-group H substance 247

ANNISON, E. F. & PENNINGTON, R. J. The metabolism of *n*-valeric acid and some branched chain acids by sheep tissues *in vitro* ix

ANSLOW, W. K. *see* SMITH, E. LESTER 389

AUDY, G. & KERLY, M. The content of glycogenolytic factor in pancreas from different species 77

AUDY, G. & KERLY, M. The content of glycogenolytic factor in some insulin samples 70

BAILEY, J. LEGGETT. Determination of the amino-acid sequence in peptides iv

BALL, S. *see* SMITH, E. LESTER 389, 395

BALMAIN, J. H., FOLLEY, S. J. & GLASCOCK, R. F. Effects of insulin and of glycerol *in vitro* on the incorporation of [*carboxy*-^{14}C] acetate into the fatty acids of lactating mammary gland slices with special reference to species differences 301

BARNETT, A. J. G. & DUNCAN, R. E. B. The estimation of the volatile fatty acids formed during the fermentation of mixtures of minced grass and water xvii

BARTLEY, W. & DAVIES, R. E. Secretory activity of mitochondria xx

BAYLISS, R. I. S. Some observations on the hydrolysis and extraction of formaldehydogenic corticosteroids 63

BENTLEY, R. & NEUBERGER, A. The mechanism of the action of uricase 694

BERRIDGE, N. J., NEWTON, G. G. F. & ABRAHAM, E. P. Purification and nature of the antibiotic nisin 529

BEST, C. H. *see* RIDOUT, J. H. 79

BIRKINSHAW, J. H. Studies in the biochemistry of micro-organisms. 89. Metabolic products of *Penicillium multicolor* G.-M. and P. with special reference to sclerotiorin 283

BLAKLEY, R. L. Sorbitol antiketogenesis and the dehydrogenation and oxidation of fatty acids 269

BLASCHKO, H. Enzymic oxidation of 5-hydroxytryptamine in mammalian and cephalopod tissue x

BLASCHKO, H. & HAWKINS, J. D-Amino-acid oxidase in the molluscan liver 306

BONDI, A. *see* MEYER, H. 95

BONNER, W. D. jun. *see* SLATER, E. C. 185

BOYLAND, E. & PAPADOPOULOS, D. The metabolism of methyl carbamate 267

BRAY, H. G., HUMPHRIS, B. G., THORPE, W. V., WHITE, K. & WOOD, P. B. Kinetic studies of the metabolism of foreign organic compounds. 2. The formation of phenols from certain precursors 412

BRAY, H. G., HUMPHRIS, B. G., THORPE, W. V., WHITE, K. & WOOD, P. B. Kinetic studies of the metabolism of foreign organic compounds. 3. The conjugation of phenols with glucuronic acid 416

BRAY, H. G., HUMPHRIS, B. G., THORPE, W. V., WHITE, K. & WOOD, P. B. Kinetic studies of the metabolism of foreign organic compounds. 4. The conjugation of phenols with sulphuric acid 419

BRAY, H. G., HYBS, Z., JAMES, S. P. & THORPE, W. V. The formation of a mercapturic acid from 2:3:5:6-tetrachloronitrobenzene in the rabbit xviii

BRAY, H. G., THORPE, W. V. & WHITE, K. Kinetic studies of the metabolism of foreign organic compounds. 5. A mathematical model expressing the metabolic fate of phenols, benzoic acids and their precursors 423

BRIDGWATER, R. J. & HASLEWOOD, G. A. D. Comparative studies of 'bile salts'. 6. Partial synthesis of coprostanic acid, a 'stem acid' of primitive bile salts 588

BROUWER, E. & NIJKAMP, H. J. Volatile acids in the secretion products (hair grease) of the skin 54

BROWN, F. The estimation of vitamin E. 2. Quantitative analysis of tocopherol mixtures by paper chromatography 523

BROWN, R., GREENWOOD, A. D., JOHNSON, A. W., LANSDOWN, A. R., LONG, A. G. & SUNDERLAND, N. The *Orobanche* germination factor. 3. Concentration of the factor by counter-current distribution 571

BRUCE, L. W. *see* SHORLAND, F. B. 400

BUSH, I. E. & TAYLOR, D. A. H. The paper-chromatographic examination of the cardiac aglycones of *Strophanthus* seeds 643

CAMA, H. R., DALVI, P. D., MORTON, R. A. & SALAH, M. K. Studies in vitamin A. 20. Some properties of retinene$_2$ 540

CAMA, H. R., DALVI, P. D., MORTON, R. A. & SALAH, M. K. Studies in vitamin A. 21. Retinene$_2$ and vitamin A$_2$ 542

CAMA, H. R., DALVI, P. D., MORTON, R. A., SALAH, M. K., STEINBERG, G. R. & STUBBS, A. L. Studies in vitamin A. 19. Preparation and properties of retinene$_2$ 535

CAMA, H. R., FIELD, A. C., GLOVER, J., MORTON, R. A. & SALAH, M. K. Studies in vitamin A. 22. Oppenauer oxidation of vitamin A$_1$ 548

CAMPBELL, P. N. Metabolic studies with 3-methyl glucose. 2. *In vitro* studies 444

CAMPBELL, P. N., CREASEY, N. H. & PARR, C. W. The specificity of muscle phosphorylase 448

CAMPBELL, P. N. & WORK, T. S. The biosynthesis of protein. 1. Uptake of glycine, serine, valine and lysine by the mammary gland of the rabbit 217

CAMPBELL, P. N. & YOUNG, F. G. Metabolic studies with 3-methyl glucose. 1. Its fate in the animal body 439

CHALMERS, J. G. Polymerization of cottonseed oil as co-factor in gastric cancer xxxi

CHANDA, R. The partition of carotenoids and vitamin A in the milk of cows and goats throughout lactation ii

CHANDA, R., CLAPHAM, H. M. & OWEN, E. C. The effect of thyrotrophin on the metabolism of carotenoids and vitamin A in the lactating cow xvii

CHARCONNET-HARDING, F., DALGLIESH, C. E. & NEUBERGER, A. Riboflavin and tryptophan metabolism in the rat vii

CHARCONNET-HARDING, F., DALGLIESH, C. E. & NEUBERGER, A. The metabolism of anthranilic acid in the rabbit and rat vii

CHARLWOOD, P. A. Sedimentation and diffusion of human albumins. 2. Nephrotic human albumins at a low concentration 279
CHIBNALL, A. C. & REES, M. W. Further observations on the amide and free carboxyl groups of insulin iii
CLAPHAM, H. M. *see* CRANDA, R. xvii
COOKE, N. J. *see* HANSEN, R. P. 203
COX, R. I. A method for the quantitative determination in urinary extracts of C_{21} 17:20-dihydroxy-20-methyl-steroids 339
CREASEY, N. H. *see* CAMPBELL, P. N. 448
CREETH, J. M. & RECORD, B. R. Physico-chemical examination of polysaccharide A *Addendum to* The virulence-enhancing factor of mucins. 6. Identification of a heparin as the main component of the third factor involved in virulence enhancement (Smith, H., Gallop, R. C., Harris-Smith, P. W. & Stanley, J. L.) 30
CROOK, E. M. & LAW, K. Glyoxalase: the role of the components 492
*CROSBIE, G. W. & SMELLIE, R. M. S. The composition of the ribonucleic acids of the liver cell nuclei and cytoplasmic fractions xxxii

Index of Subjects

Note. Entries marked with an asterisk (*) refer to communications made in title only.
Entries marked with a section mark (§) refer to contributions to Symposia.
Small roman numerals refer to pages in *Proceedings of the Biochemical Society.*

Absorptiometer, Spekker, conversion to a semi-automatic scanning device for paper electrophoresis of serum proteins (Latner, A. L.) xxxii
Acetaldehydogenic steroids, estimation of (Cox, R. I.) 339
Acetate, [*carboxy*-^{14}C], incorporation into lactose and glycerol by the lactating goat udder (Popják, G., Glascock, R. F. & Folley, S. J.) 472
Acetate, labelled, incorporation into fatty acids by mammary gland slices (Balmain, J. H., Folley, S. J. & Glascock, R. F.) 301
Acetoacetate, formation from octanoate in mitochondria suspensions (Blakley, R. L.) 269
Acetylcholinesterase, activity in some mammalian tissues (Todrick, A.) xxviii
Acid, fatty, composition of New Zealand butterfat, seasonal variation in (Hansen, R. P. & Shorland, F. B.) 207
Acidosis, effect on ammonia production in the rat (Davies, B. M. A. & Yudkin, J.) 407
Acids, branched-chain fatty, of mutton fat (Hansen, R. P., Shorland, F. B. & Cooke, N. J.) 203
Acids, component fatty, of lipids from fatty tissues, muscle and liver (Shorland, F. B., Bruce, L. W. & Jessop, A. S.) 400
Acids, fatty, incorporation of labelled acetate into, by mammary gland slices (Balmain, J. H., Folley, S. J. & Glascock, R. G.) 301
Acids, fatty, of liver and body lipids in the rat, effect of choline deficiency on (Siva Raman, C.) 320
Acids, fatty, oxidation of (Blakley, R. L.) 269
Acids, fatty, volatile, formed during the fermentation of mixtures of minced grass and water, estimation of (Barnett, A. J. G. & Duncan, R. E. B.) xvii
Acids, sugar, inhibition of β-glucuronidase by (Levvy, G. A.) 464
Acids, volatile fatty, formed during the fermentation of mixtures of minced grass and water, estimation of (Barnett, A. J. G. & Duncan, R. E. B.) xvii
Acids, volatile, in the secretion products (hair grease) of the skin (Brouwer, E. & Nijkamp, H. J.) 54
Aconitase activity of rabbit bone (Dixon, T. F. & Perkins, H. R.) 260
Aconitase, conversion of citrate into *cis*-aconitate and *iso*-citrate in the presence of (Krebs, H. A. & Holzach, O.) 527
cis-Aconitate, conversion of citrate into, in the presence of aconitase (Krebs, H. A. & Holzach, O.) 527
Adaptation, biochemical, studies in (Davies, B. M. A. & Yudkin, J.) 407
Adaptation, enzymic, in bacteria (Heald, P. J.) 378
Adaptation, tryptophan-tryptophanase, changes in the nucleic acid fraction during (Hakim, A. A. & Happold, F. C.) xxv
Adenine polyphosphates, formation by brain slices (McIlwain, H.) 289
Adenosine phosphates, separation by paper chromatography (Eggleston, L. V. & Hems, R.) 156
Adenosine triphosphatase activity of developing chick muscle (Robinson, D. S.) 633
Adenosine triphosphate in peripheral nerves during Wallerian degeneration (Hollinger, D. M., Rossiter, R. J. & Upmalis, H.) 652
Adenosine triphosphate, activation of octanoate oxidation by (Blakley, R. L.) 269
Adenylic acid, effect on phosphokinase of brain. (Narayanaswami, A.) 295
Adenyl pyrophosphates in the fatty livers of guinea pigs produced by carbon tetrachloride (Rowles, S. L.) xxi
Adrenaline levels in blood during insulin hypoglycaemia (Weil-Malherbe, H.) xi
Aerobacter aerogenes, effect of pH on growth in synthetic media (Dagley, S., Dawes, E. A. & Foster, S. M.) xxi
Aerobacter aerogenes, fermentation of glucuronic acid and xylose by (Heald, P. J.) 378
Aglycones, cardiac, of *Strophanthus* seeds, paper chromatography of (Bush, I. E. & Taylor, D. A. H.) 643
Alanine in invertebrate nerves (Lewis, P. R.) 330
L-Alanine as precursor of urinary ammonia in the rat (Davies, B. M. A. & Yudkin, J.) 407
Albumin, human, sedimentation and diffusion of (Charlwood, P. A.) 279
Albumin, serum, action or radiomimetic agents on (Alexander, P., Fox, M., Stacey, K. A. & Smith, L. F.) 177
Alcohol dehydrogenase, liver, and ester formation (Kendal, L. P. & Ramanathan, A. N.) 430
Aldehyde dehydrogenase of liver (Kendal, L. P. & Ramanathan, A. N.) 430
Aldehyde mutase of liver (Kendal, L. P. & Ramanathan, A. N.) 430
Aldolase, muscle, inactivity against ribose-5-phosphate (Glock, G. E.) 575
Alga, protein synthesis in (Fowden, L.) 310
Alkalosis, effect on ammonia production in the rat (Davies, B. M. A. & Yudkin, J.) 407
Alkylating agents, radiomimetic, examination of function (Alexander, P., Fox, M., Stacey, K. A. & Smith, L. F.) 177
Alligator mississippiensis, bile salts of (Haslewood, G. A. D.) 583
Amethopterin, effect on the metabolism of bone marrow and spleen (Lutwak-Mann, C.) 356
Amide groups of insulin (Chibnall, A. C. & Rees, M. W). iii
Amidopyrine, effect on the metabolism of bone marrow and spleen (Lutwak-Mann, C.) 356
Amine oxidase in liver (George, P. & Irvine, D. H.) 511
Amines, volatile aliphatic, separation of (James, A. T.) 242
Amino-acid composition of nisins (Berridge, N. J., Newton, G. G. F. & Abrahams, E. P.) 534
D-Amino-acid oxidase in the molluscan liver (Blaschko, H. & Hawkins, J.) 306
D-Amino-acid oxidase, oxidation of Mn^{2+} by hydrogen peroxide from (Kenton, R. H. & Mann, P. J. G.) 125
L-Amino-acid oxidase and renal ammonia production in the rat (Davies, B. M. A. & Yudkin, J.) 407
Amino-acid sequence in peptides, determination of (Bailey, J. Leggett) iv
Amino-acid sequence in the glycyl chain of insulin (Sanger, F. & Thompson, E. O. P.) iii
Amino-acids, free, occurring in the body tissues and blood of the rat and of the cow (Walker, D. M.) 679
Amino-acids, free, of invertebrate nerve (Lewis, P. R.) 330
Amino-acids in human hair (Lang, J. M. & Lucas, C. C.) 84
Amino-acids of urine (Westall, R. G.) 638

Amino compounds, reactions with retinene$_2$ (Cama, H. R., Dalvi, P. D., Morton, R. A. & Salah, M. K.) 540
o-Aminophenol, condensation with α- or β-glucuronic acid 1-phosphate (Levvy, G. A. & Marsh, C. A.) 690
Amino sugars, estimation by alkaline decomposition (Tracey, M. V.) 265
Aminopterin, effect on metabolism of bone marrow and spleen (Lutwak-Mann, C.) 356
Ammonia, estimation of, after alkaline decomposition of amino sugars (Tracy, M. V.) 265
Ammonia-oxidizing systems of *Nitrosomonas* (Lees, H.) 134
Ammonia, uptake by *Chlorella vulgaris* (Fowden, L.) 310
Ammonium lactate, [^{15}N], metabolism in cats (Kornberg, H. L. & Davies, E. R.) 345
Ammonium molybdate in the separation of ^{24}Na and ^{32}P (Ennor, A. H. & Rosenberg, H.) 591
α-Amylase, determination of (Hobson, P. N. & Macpherson, M.) 671
Amylases of *Clostridium butyricum* and a *Streptococcus* isolated from the rumen of sheep (Hobson, P. N. & Macpherson, M.) 671
Anaemia, pernicious, growth factors for *Lactobacillus leichmannii*, *Streptococcus faecalis* and *Leuconostoc citrovorum* in the tissues of patients with (Girdwood, R. H.) 58
Anion-exchange resin Dowex 2, separation of ampholytes from other constituents in urine (Westall, R. G.) 638
Anion permeability of erythrocytes, alleged effect of acid phosphate on (Holton, F. A.) 506
Anisole, hydroxylation of (Bray, H. G., Humphris, B. G., Thorpe, W. V., White, K. & Wood, P. B.) 412
Anodonta, D-amino-acid oxidase in the liver of (Blaschko, H. & Hawkins, J.) 306
Anthranilic acid, metabolism in the rabbit and rat (Charconnet-Harding, F., Dalgliesh, C. E. & Neuberger, A.) vii
Antiketogenesis, sorbitol, of fatty acids (Blakley, R. L.) 269
Arabinose, adaptive fermentation by *Escherichia coli* (Heald, P. J.) 378
Arginine, isolation from gelatin (Robson, W. & Selim, A. S. M.) 318
Aromatic diamines as reagents for keto acids (Hockenhull, D. J. D. & Floodgate, G. D.) 38
Arsenate, effect on the succinic oxidase system (Slater, E. C. & Bonner, W. D. jun.,) 185
N-Arylglucosylamines, properties of fructosamines derived from (Gottschalk, A.) 455
Arylsulphatase, manometric method for the study of (Lowenstein, J. M. & Young, L.) xxv
Ascorbic acid, behaviour in rat bone marrow and spleen under various conditions (Lutwak-Mann, C.) 356
Aspartic acid in invertebrate nerves (Lewis, P. R.) 330
L-Aspartic acid as precursor of urinary ammonia in the rat (Davies, B. M. A. & Yudkin, J.) 407
Assays, multiple-dose, statistical examination of (Please, N. W.) 75
Azide, effect on inhibition of *Tetrahymena pyriformis* (Ryley, J. F.) 483

Bacteria, rumen, fermentation of glucose and cellobiose by (Sijpesteijn, A. K. & Elsden, S. R.) 41
Bacteria, soil, metabolism of the monohydroxybenzoic acids by (Walker, N. & Evans, W. C.) xxiii
Bacterial polysaccharides, virulence-enhancing activity of (Smith, H., Gallop, R. C. & Stanley, J. L.) 15
Barley, lignin in (Myer, H. & Bondi, A.) 95
Benzoic acids, mathematical model expressing the metabolic fate of (Bray, H. G., Thorpe, W. V. & White, K.) 423
Benzoxazolone, hydroxylation of (Bray, H. G., Humphris, B. G., Thorpe, W. V., White, K. & Wood, P. B.) 412
Bicarbonate-chloride exchange in horse erythrocytes (Holton, F. A.) 506
Bile acid, C_{27}, synthesis of side chain (Bridgwater, R. J. & Haslewood, G. A. D.) 588
Bile acids with more than 24 C-atoms (Haslewood, G. A. D.) 583
Bile pigment formation *in vitro* from catalase and peroxidase (Kench, J. E.) xxvii
Bile pigment formation *in vitro* from myoglobin (Kench, J. E. & Gardikas, C.) xv
Bile salts, comparative studies of (Haslewood, G. A. D.) 583; (Bridgwater, R. J. & Haslewood, G. A. D.) 588
Bilirubin, serum, estimation of (Patterson, J., Swale, J. & Maggs, C.) 100
'Biological compound' of Yamazoye (Crook, E. M. & Law, K.) 492
Biological values of some grasses, and protein preparations from young and mature species, by the Thomas-Mitchell method, using rats (Davies, M., Evans, W. C. & Parr, W. H.) xxiii
Biosynthesis of L-cystine and L-methionine labelled with radioactive sulphur (^{35}S) (Williams, R. B. & Dawson, R. M. C.) 314
Bisepoxides, cross-linking of serum albumins by (Alexander, P., Fox, M., Stacey, K. A. & Smith, L. F.) 177
Bisnorsterocholanic acid, α-trihydroxy-, identity with 3α:2α:12α-trihydroxycoprostanic acid (Haslewood, G. A. D.) 583
Blood adrenaline levels during insulin hypoglycaemia (Weil-Malherbe, H.) xi
Blood, clotting of (Lorand, L. & Middlebrook, W. R.) 196
Blood-group H substance, human, isolation and properties of (Annison, E. F. & Morgan, W. T. J.) 247
Blood-group H substance, physicochemical examination of (Kekwick, R. A.) 259
Blood-group O substance, so-called, study of (Annison, E. F. & Morgan, W. T. J.) 247
Blood of the rat and of the cow, free amino-acids occurring in (Walker, D. M.) 679
Bone, determination of sodium in (Davies, R. E., Kornberg-H. L. & Wilson, G. M.) xv
Bone marrow, phosphorus metabolism in (Lutwak-Mann, C.) 356
Bone metabolism, citric acid and (Dixon, T. F. & Perkins, H. R.) 260
Brain creatine phosphokinase in mammals (Narayanaswami, A.) 295
Brain, metabolism of malononitrile by (Stern, J., Weil-Malherbe, H. & Green, R. H.) 114
Brain phosphates during *in vitro* metabolism, effect of oxygen, glucose, glutamate, glutamine, calcium and potassium salts on (McIlwain, H.) 289
Branched-chain acids, metabolism by sheep tissues *in vitro* (Annison, E. F. & Pennington, R. J.) ix
Branched-chain fatty acids of mutton fat (Hansen, R. P., Shorland, F. B. & Cooke, N. J.) 203
*iso*Butanol in the separation of ^{24}Na and ^{32}P (Ennor, A. H. & Rosenberg, H.) 591
Butterfat, New Zealand, seasonal variations in fatty acid composition of (Hansen, R. P. & Shorland, F. B.) 207
Butyrylcholinesterase, activity in some mammalian tissues (Todrick, A.) xxviii

Caiman crocodilus, bile salts of (Haslewood, G. A. D.) 583
Calcification of hypertrophic rat cartilage *in vitro*, effect of citrate on (Dixon, T. F. & Perkins, H. R.) 260
Calcium, effect on brain phosphates *in vitro* (McIlwain, H.) 289
Calcium ions, effect on phosphokinase of brain (Narayanaswami, A.) 295
Calf faeces, properties of vitamin B_{12}-like factors from (Ford, J. E., Kon, S. K. & Porter, J. W. G.) viii

Cancer, gastric, polymerization of cottonseed oil as a co-factor in (Chalmers, J. G.) xxxi
Cancer pagurus, free amino-acids of (Lewis, P. R.) 330
Carbohydrate in hyaluronic acid (Ogston, A. G. & Stanier, J. E.) 149
Carbohydrate metabolism of a ciliate (Ryley, J. F.) 483
Carbohydrates, fermentation by coliform bacteria (Heald, P. J.) 378
Carbon dioxide formation in the oxidation of uric acid by uricase (Bentley, R. & Neuberger, A.) 694
Carbon isotope, ^{14}C, incorporation into the nucleic acids of liver cell fractions (Smellie, R. M. S. & McIndoe, W. M.) xxii
*Carbon isotope, ^{14}C, incorporation into the proteins of liver cell nuclei and cytoplasmic fractions (Leaf, G., McIndoe, W. M. & Smellie, R. M. S.) xxxii
Carbon isotopes, ^{13}C and ^{14}C, combustion technique for the assay of (Glascock, R. F.) 699
Carbon tetrachloride, adenylpyrophosphates in the fatty livers of guinea pigs produced by (Rowles, S. L.) xxxi
Carbonic anhydrase in erythrocytes (Holton, F. A.) 506
Carbonium ions as intermediates in biological oxidations and coupled phosphorylations (Bentley, R. & Neuberger, A.) 694
Carboxyl groups, free, of insulin (Chibnall, A. C. & Rees, M. W.) iii
Carcinus moenas, free amino-acids of (Lewis, P. R.) 330
Cardiac aglycones of *Strophanthus* seeds, paper chromatography of (Bush, I. E. & Taylor, D. A. H.) 643
Carotene production by various mutants of *Phycomyces blakesleeanus* and *Phycomyces* nitens (Goodwin, T. W. & Griffiths, L. A.) 499
Carotenogenesis, studies in (Goodwin, T. W. & Griffiths, L. A.) 499
Carotenoids, effect of thyrotrophin on the metabolism in the lactating cow (Chanda, R., Clapham, H. M. & Owen, E. C.) xvii
Carotenoids in the milk of cows and goats during lactation, partition of (Chanda, R.) ii
Casein, biosynthesis of (Campbell, P. N. & Work, T. S.) 217
Cat, glycogenolytic-factor content of pancreatic extracts from (Audy, G. & Kerly, M.) 77
Catalase, bile pigment formation *in vitro* from (Kench, J. E.) xxvii
Catalase, effect on oxidation of α-hydroxyacids (Kenton, R. H. & Mann, P. J. G.) 130
Catalase intermediate compounds, redox reactions of (George, P.) xix
Cation-exchange resin Zeo-Karb 215, separation of ampholytes from other constituents in urine (Westall, R. G.) 638
Cattle, acids in hair grease of (Brouwer, E. & Nijkamp, H. J.) 54
*Cell nuclei, liver, composition of the ribonucleic acids of (Crosbie, G. W. & Smellie, R. M. S.) xxxii
*Cell nuclei, liver, incorporation of ^{35}S and ^{14}C into the proteins of (Leaf, G., McIndoe, W. M. & Smellie, R. M. S.) xxxii
*Cell nucleus in rat tissues, deoxyribonucleic acid content of (Frazer, S. C., Thomson, R. Y. & Heagy, F. C.) xxxii
Cellobiose, fermentation by rumen bacteria (Sijpesteijn, A. K. & Elsden, S. R.) 41
Cephalopod molluscs, amino-acids in the nerves of (Lewis, P. R.) 330
Cephalopod tissue, enzymic oxidation of 5-hydroxytryptamine in (Blaschko, H.) x
Cephalopods, D-amino-acid oxidase in the liver of (Blaschko, H. & Hawkins, J.) 306
'Chemical compound' of Yamazoye (Crook, E. M. & Law, K.) 492
Chenopodium vulvaria L., volatile bases of (James, A. T., Martin, A. J. P. & Smith, G. Howard) 238
*Chick embryo heart, cortisone, growth hormone and insulin action of cultures on (Leslie, I.) xxxii
Chick embryo muscle, distribution of adenosine triphosphatase activity in (Robinson, D. S.) 633
Chick muscle, changes during development in the protein composition of (Robinson, D. S.) 621
Chick muscle proteins, changes in nucleoprotein and myofibrillar proteins during development (Robinson, D. S.) 628
Chlorella vulgaris, amino-acid composition of proteins from (Fowden, L.) 310
Chlorella vulgaris, growth characteristics of (Fowden, L.) 310
Chlorella vulgaris, uptake of ammonia and nitrate by (Fowden, L.) 310
Chloride-bicarbonate exchange in horse erythrocytes (Holton, F. A.) 506
Chloride, potentiometric determination in biological fluids (Sanderson, P. H.) 502
*Chloroplasts, cytochrome components in (Davenport, H. E.) xiii
Cholesterol, determination of, by the Liebermann-Burchard reaction (Kenny, A. P.) 611
Cholesterol, dietary, effect of varying amounts upon liver lipids (Ridout, J. H., Lucas, C. C., Patterson, J. M. & Best, C. H.) 79
Cholesterol, 7α-hydroxy-, possible presence in human sebum (Mackenna, R. M. B., Wheatley, V. R. & Wormall, A.) 161, 168
Cholesteryl esters in livers of rats consuming a diet free from cholesterol (Ridout, J. H., Lucas, C. C., Patterson, J. M. & Best, C. H.) 79
Choline, chromatography of (Whittaker, V. P. & Wijesundera, S.) 475
Choline deficiency, effect on the fatty acids of liver and body lipids in the rat (Siva Raman, C.) 320
Choline, dietary, effect of varying amounts upon liver lipids (Ridout, J. H., Lucas, C. C., Patterson, J. M. & Best, C. H.) 79
Cholinesterase, erythrocyte, inhibition by tri-esters of phosphoric acid (Aldridge, W. N. & Davison, A. N.) 663
Cholinesterase, horse serum, hydrolysis of succinylcholines by (Whittaker, V. P. & Wijesundera, S.) 475
Cholinesterase, studies on (Myers, D. K.) 46
Cholinesterases, acetyl- and butyryl-, activity in some mammalian tissues (Todrick, A.) xxviii
D-Chondrosamine as component of H substance (Annison, E. F. & Morgan, W. T. J.) 247
Chromatograms, paper, 'chromatocoil'—a space-saving device for (Schwarz, V.) xiii
Chromatography, gas-liquid partition (James, A. T., Martin, A. J. P. & Smith, G. Howard) 238; (James, A. T.) 242
Chromatography of the cardiac aglycones of *Strophanthus* seeds (Bush, I. E. & Taylor, D. A. H.) 643
Chromatography, paper, quantitative analysis of tocopherol mixtures by (Brown, F.) 523
Chromatography, paper, separation of adenosine phosphates by (Eggleston, L. V. & Hems, R.) 156
Ciliates, *see Tetrahymena pyriformis*
Cinchonidine and cinchonine, action of sheep liver homogenates on (Fraser, G. P. & Kermack, W. O.) xxvi
Citrate, conversion into *cis*-aconitate and *iso*citrate in the presence of aconitase (Krebs, H. A. & Holzach, O.) 527
Citrate metabolism, influence of steroids on (Grant, J. K. & Taylor, W.) xxiv
*iso*Citrate, conversion of citrate into, in the presence of aconitase (Brown, F.) 527
Citric acid and bone metabolism (Dixon, T. F. & Perkins, H. R.) 260
Citric acid cycle and formation of glucose from acetate in lactating udder (Popják, G., Glascock, R. F. & Folley, S. J.) 472

*iso*Citric dehydrogenase activity of rabbit bone (Dixon, T. F. & Perkins, H. R.) 260
'Citrogenase' activity of rabbit bone (Dixon, T. F. & Perkins, H. R.) 260
Citrovorum factor, excretion in health and disease (Girdwood, R. H.) xxvii
Citrovorum factor in the tissues of pernicious anaemia patients (Girdwood, R. H.) 58
Clostridium butyricum isolated from the rumen of sheep, amylases of (Hobson, P. N. & Macpherson, M.) 671
Clotting of blood (Lorand, L. & Middlebrook, W. R.) 196
Cobalamins, neutral, basic and acidic (Smith, E. Lester, Ball, S. & Ireland, D. M.) 395
Cobalamins (vitamins B_{12}) (Smith, E. Lester, Fantes, K. H., Ball, S., Waller, J. G., Emery, W. B., Anslow, W. K. & Walker, A. D.) 389
Cobalt, radioactive, in vitamin B_{12} (Smith, E. Lester) 384
Cobalt, radioactive, in vitamin B_{12} (Smith, E. Lester, Hockenhull, D. J. D. & Quilter, A. R. J.) 387
Cocksfoot (*Dactylis glomerata*), S. 37 and S. 143, biological values and digestibility of (Davies, M., Evans, W. C. & Parr, W. H.) xxiii
Coenzyme I (DPN), activation of octanoate oxidation by (Blakley, R. L.) 269
Coenzyme II (TPN) and oxidation of ribose-5-phosphate (Glock, G. E.) 575
Colchicine, effect on the metabolism of bone marrow and spleen (Lutwak-Mann, C.) 356
Collagen, determination of basic groups in (Ellis, S. C. & Pankhurst, K. G. A.) 350
Collagen, solubilization of (Jackson, D. S.) xxix
Complement, haemolytic, action *in vitro* and *in vivo* of some nitrogen mustards on (Watkins, W. M. & Wormall, A.) 365
Conjugates of corticosteroids, methods for hydrolysing (Bayliss, R. I. S.) 63
Conjugation of phenols with glucuronic acid (Bray, H. G., Humphris, B. G., Thorpe, W. V., White, K. & Wood, P. B.) 416
Conjugation of phenols with sulphuric acid (Bray, H. G., Humphris, B. G., Thorpe, W. V., White, K. & Wood, P. B.) 419
Constants, reaction velocity, determination with a reversible inhibitor of pseudo cholinesterase (Myers, D. K.) 46
Coproporphyrin III, intravenously administered, fate in normal and lead-treated rabbits (Weatherall, M.) 683
Coprostanic acid (coprostan-26-oic acid), and derivatives (Haslewood, G. A. D.) 583
Coprostanic acid, derivation from trihydroxycoprostanic acid (Bridgwater, R. J. & Haslewood, G. A. D.) 588
*Cortisone, action on cultures of chick embryo heart (Leslie, I.) xxxii
Cortisone, action on embryonic tissue growing *in vitro* (Leslie, I.) xxi
Cortisone-induced glycosuria and hyperglycaemia in the normal rat, effect of salicylate on (Smith, M. J. H.) 649
Cotton-seed hulls, lignin in (Myer, H. & Bondi, A.) 95
Cotton-seed oil as a co-factor in gastric cancer, polymerization of (Chalmers, J. G.) xxxi
Counter-current distribution applied to the *Orobanche* germination factor (Brown, R., Greenwood, A. D., Johnson, A. W., Lansdown, A. R., Long, A. G. & Sunderland, N.) 571
Cow, free amino-acids occurring in the body tissues and blood of (Walker, D. M.) 679
Cow, lactating, effect of thyrotrophin on the metabolism of carotenoids and vitamin A in (Chanda, R., Clapham, H. M. & Owen, E. C.) xvii
Cows' milk during lactation, partition of carotenoids and vitamin A in (Chanda, R.) ii
Cozymase breakdown in mammary tissue (Terner, C.) 229
Cozymase, enzymic inactivation of, in mammary tissue (Terner, C.) 229
Cozymase in rat brain after malononitrile injection (Stern, J., Weil-Malherbe, H. & Green, R. H.) 114
Creatine phosphate, formation by brain slices (McIlwain, H.) 289
Creatine phosphokinase in mammalian brain (Narayanaswami, A.) 295
Crocodylus niloticus, bile salts of (Haslewood, G. A. D.) 583
Cross-linking of protein molecules, and complement inactivation (Watkins, W. M. & Wormall, A.) 365
Cross-linking of proteins (Alexander, P., Fox, M., Stacey, K. A. & Smith, L. F.) 177
Crustacea, amino-acids in the nerves of (Lewis, P. R.) 330
Cyanide, formation from malononitrile (Stern, J., Weil-Malherbe, H. Green, R. H.) 114
Cyst fluids, ovarian, H substance from (Annison, E. F. & Morgan, W. T. J.) 247
L-Cystine, effect on sulphate conjugation in rabbit (Bray, H. G., Humphris, B. G., Thorpe, W. V., White, K. & Wood, P. B.) 419
L-Cystine, radioactive, preparation of (Williams, R. B. & Dawson, R. M. C.) 314
*Cytochrome components in chloroplasts (Davenport, H. E.) xiii
Cytochrome system of the ciliate *Tetrahymena pyriformis* (Ryley, J. F.) 483
*Cytoplasmic fractions, composition of the ribonucleic acids of (Crosbie, G. W. & Smellie, R. M. S.) xxxii
*Cytoplasmic fractions, incorporation of ^{35}S and ^{14}C into (Leaf, G., McIndoe, W. M. & Smellie, R. M. S.) xxxii

Dactylis glomerata (Cocksfoot), biological values and digestibility of (Davies, M., Evans, W. C. & Parr, W. H.) xxiii
Deamination of compounds in the kidney by amino-acid oxidases (Davies, B. M. A. & Yudkin, J.) 407
Degeneration, Wallerian, chemical studies of peripheral nerve during (Hollinger, D. M., Rossiter, R. J. & Upmalis, H.) 652; (Hollinger, D. M. & Rossiter, R. J.) 659
7-Dehydrocholesterol in the sexual organs of the rat (Moore, T. & Ward, R. J.) v
Dehydrogenase activity, *iso*citric, of rabbit bone (Dixon, T. F. & Perkins, H. R.) 260
Deoxypentosenucleic acid, relation to β-glucuronidase activity in nerve of cat (Hollinger, D. M. & Rossiter, R. J.) 659
*Deoxyribonucleic acid content of the cell nucleus in rat tissues (Frazer, S. C., Thomson, R. Y. & Heagy, F. C.) xxxii
Deoxyribonucleic acid, effect on β-glucuronidase activity (Smith, E. E. B. & Mills, G. T.) i
Dialuric acid haemolysis test for vitamin E deficiency in rats (Heard, D. H., Moore, T. & Sharman, I. M.) i
Diamines, aromatic, as reagents for keto acids (Hockenhull, D. J. D. & Floodgate, G. D.) 38
1:2-Diamino-4-nitrobenzene as reagent for keto acids (Hockenhull, D. J. D. & Floodgate, G. D.) 38
Diepoxides and inactivation of complement (Watkins, W. M. & Wormall, A.) 365
Dietary changes, effect on constituents of bone marrow and spleen (Lutwak-Mann, C.) 356
Dietary cholesterol and choline, effect of varying amounts upon liver lipids (Ridout, J. H., Lucas, C. C., Patterson, J. M. & Best, C. H.) 79
Diethyl phenyl phosphates, structures of and inhibition of cholinesterase by (Aldridge, W. N. & Davison, A. N.) 663
Diets, human, data on (Ridout, J. H., Lucas, C. C., Patterson, J. M. & Best, C. H.) 79
Diffusion of H substance (Kekwick, R. A.) 259

Diffusion of human albumins (Charlwood, P. A.) 279
Digestibilities of some grasses, and protein preparations from young and mature species, by the Thomas-Mitchell method, using rats (Davies, M., Evans, W. C. & Parr, W. H.) xxiii
Dehydrogenase, liver alcohol, and ester formation (Kendal, L. P. & Ramanathan, A. N.) 430
17:20-Dihydroxy-20-methylsteroids, method for the quantitative determination in urinary extracts of (Cox, R. I.) 339
Dimethylamine, gas-liquid partition chromatography of (James, A. T., Martin, A. J. P. & Smith, G. Howard) 238
Dimethylcarbamate of (2-hydroxy-5-phenylbenzyl)-trimethylammonium bromide, velocity constants of the reactions with the pseudo cholinesterase of human serum (Myers, D. K.) 46
(+)-4:6-Dimethylocta-2:4-dienoic acid as degradation product of sclerotiorin (Birkinshaw, J. H.) 283
2:4-Dinitrophenol, effect on carbohydrate metabolism of brain cortex slices and retina (Terner, C.) 229
2:4-Dinitrophenol, effect on the inhibition of *Tetrahymena pyriformis* (Ryler, J. F.) 483
2:4-Dinitrophenol, effect on the metabolism of lactating mammary gland slices (Terner, C.) 229
Dinitrophenylglycine, chromatography of (Krol, S.) 227
Dinucleotides as degradation products of ribonucleic acids (Markham, R. & Smith, J. D.) 558
Diphosphopyridine pyrophosphatase, breakdown of cozymase by (Terner, C.) 229
Dose assays, multiple, statistical examination of (Please, N. W.) 75
Drying, effect on the stability of lipovitellin (Lea, C. H. & Hawke, J. C.) 105

Egg yolk, lipovitellin of (Lea, C. H. & Hawke, J. C.) 105
Electrode, micro glass (Hartree, E. F.) 619
Electrophoresis and the staining of serum proteins on filter paper with naphthalene black (Latner, A. L.) xxix
Electrophoresis in filter paper, direct determination of nitrogen in protein fractions separated by (Anderson, A. B.) x
Electrophoresis of H substance (Kekwick, R. A.) 259
Electrophoresis of nucleotides on paper (Markham, R. & Smith, J. D.) 552
Electrophoresis of nucleotides and polynucleotides on paper (Markham, R. & Smith, J. D.) 558
Electrophoresis of the polysaccharide 'A' from hog gastric mucin (Creeth, J. M. & Record, B. R.) 30
Electrophoresis, quantitative, of serum proteins on filter paper, conversion of the Spekker absorptiometer to a semi-automatic scanning device for (Latner, A. L.) xxxii
Electrophoresis technique, paper, application to vitamin B_{12} binding in serum (Latner, A. L., Rain, L., Ross, G. I. M. & Ungley, C. C.) xxxiii
Electrophoresis, use in purification of hyaluronic acid (Ogston, A. G. & Stanier, J. E.) 149
*Embryo heart, chick, cortisone, growth hormone and insulin action of cultures on (Leslie, I.) xxxii
Embryonic tissue growing *in vitro*, cortisone, growth hormone, and insulin action on (Leslie, I.) xxi
Energy intake, influence on ribonucleic acid metabolism in different fractions of the liver cell (Wikramanayake, T. W., Heagy, F. C. & Munro, H. N.) xxxii
Enzyme inhibitors of the succinic oxidase system (Slater, E. C. & Bonner, W. D. jun.) 185
Enzyme reactions, two-stage, kinetics of (Whittaker, V. P. & Wijesundera, S.) 475
Enzyme-substrate compound, dissociation constant and Michaelis constant of (Slater, E. C. & Bonner, W. D. jun.) 185
Enzymes, kidney, in the rat, effect of chronic acidosis and alkalosis on (Davies, B. M. A. & Yudkin, J.) 407
Enzymes, starch-degrading, isolation from cultures of sheep rumen strains of *Clostridium butyricum* and a *Streptococcus* grown in media containing dissolved starch (Hobson, P. N. & Macpherson, M.) 671
Epiphysis, enzyme levels in (Dixon, T. F. & Perkins, H. R.) 260
Epithelium, rumen, of sheep, passage of inorganic phosphate across (Parthasarathy, D., Garton, G. A. & Phillipson, A. T.) xvi
Erythrocyte cholinesterase, inhibition by tri-esters of phosphoric acid (Aldridge, W. N. & Davison, A. N.) 663
Erythrocytes, alleged effect of acid phosphate on the anion permeability of (Holton, F. A.) 506
Erythrocytes, horse, water exchange in (Holton, F. A.) 506
Escherichia coli, effect of pH on growth in synthetic media (Dagley, S., Dawes, E. A. & Foster, S. M.) xxi
Escherichia coli, fermentation of glucuronic acid and xylose by (Heald, P. J.) 378
Eserine, effect on enzymic hydrolysis of succinylcholines (Whittaker, V. P. & Wijesundera, S.) 475
Esox lucius, vitamins A in the liver of (Cama, H. R., Dalvi, P. D., Morton, R. A., Salah, M. K., Steinberg, G. R. & Stubbs, A. L.) 535
Ester formation, liver alcohol dehydrogenase and (Kendal, L. P. & Ramanathan, A. N.) 430
Ethanol, influence on enzymic dismutation of formaldehyde by liver enzymes (Kendal, L. P. & Ramanathan, A. N.) 430

Faeces, absence of coproporphyrin III in, during lead poisoning (Weatherall, M.) 683
Faeces, calf, properties of vitamin B_{12}-like factors from (Ford, J. E., Kon, S. K. & Porter, J. W. G.) viii
Faeces, sheep, lignin in (Myer, H. & Bondi, A.) 95
Fat content of rat liver, effect on zinc on (Sadasivan, V.) 452
Fatty acids *see* Acids, fatty
Fermentation of glucose by yeast, effect of 3-methyl glucose on (Campbell, P. N.) 444
Fermentation of mixtures of minced grass and water, estimation of the volatile fatty acids formed during (Barnett, A. J. G. & Duncan, R. E. B.) xvii
Ferret, glycogenolytic-factor content of pancreatic extracts of (Audy, G. & Kerly, M.) 77
Fibrinogen, action of thrombin on (Lorand, L. & Middlebrook, W. R.) 196
Fibrino-peptide (Lorand, L.) 200
Fluoride, effect on phosphokinase of brain (Narayanaswami, A.) 295
Fluoride, effect on the succinic oxidase system (Slater, E. C. & Bonner, W. D. jun.) 185
Formaldehyde, enzymic dismutation of (Kendal, L. P. & Ramanathan, A. N.) 430
Formaldehydogenic corticosteroids, hydrolysis and extraction of (Bayliss, R. I. S.) 63
Formaldehydogenic steroids, estimation of (Cox, R. I.) 339
Formic acid, volatile esters formed enzymically from (Kendal, L. P. & Ramanathan, A. N.) 430
Freezing, effect on the stability of lipovitellin (Lea, C. H. & Hawke, J. C.) 105
Fructosamines, *N*-substituted, derived from amino-acid and *N*-arylglucosylamines, biochemical properties of (Gottschalk, A.) 455
Fructose-1:6-diphosphate, in metabolism of mammary gland slices (Ternier, C.) 229
Fructosemonophosphate, formation from ribose-5-phosphate (Glock, G. E.) 575
L-Fucose as component of H substance (Annison, E. F. & Morgan, W. T. J.) 247

Galactosamine, estimation by alkaline decomposition (Tracey, M. V.) 265
D-Galactose as component of H substance (Annison, E. F. & Morgan, W. T. J.) 247
Galactose-1-phosphate in milk (McGeown, M. G. & Malpress, F. H.) 606
Galacturonic acid, adaptive fermentation by *Escherichia coli* (Heald, P. J.) 378
Gas counting of isotopes of carbon (Glascock, R. F.) 699
Gas-liquid partition chromatography (James, A. T., Martin, A. J. P. & Smith, G. Howard) 238; (James, A. T.) 242
Gastric cancer, polymerization of cotton seed oil as a co-factor in (Chalmers, J. G.) xxxi
Gastric mucin, hog, isolation of heparin from (Smith, H., Gallop, R. C., Harris-Smith, P. W. & Stanley, J. L.) 23
Gastric mucin, hog, virulence-enhancing activity of (Smith, H., Gallop, R. C. & Stanley, J. L.) 15
Gastric mucin, hog, virulence-enhancing factors in (Smith, H., Gallop, R. C., Harris-Smith, P. W. & Stanley, J. L.) 23
Gastric urease, role of (Kornberg, H. L. & Davies, E. R.) 345
Gastrin, method for the preparation of (Jorpes, J. E., Jalling, O. & Mutt, V.) 327
Gastro-intestinal tract, smooth muscle stimulants from (Dalgliesh, C. E., Toh, C. C. & Work, T. S.) xxx
Gastropods, D-amino-acid oxidase in the liver of (Blaschko, H. & Hawkins, J.) 306
Gelatin, determination of basic groups in (Ellis, S. C. & Pankhurst, K. G. A.) 350
Germination factor, properties of (Brown, R., Greenwood, A. D., Johnson, A. W., Lansdown, A. R., Long, A. G. & Sunderland, N.) 571
Glass electrode, micro (Hartree, E. F.) 619
Glaucoma piriformis see Tetrahymena pyriformis
Globin moieties of the haemoglobin of rats and rabbits, incorporation of [α-^{14}C]glycine into (Muir, H. M., Neuberger, A. & Perrone, J. C.) 87
β-D-Glucopyranuronic acid-1-phosphate, hydrolysis by glucuronidase (Levvy, G. A. & Marsh, C. A.) 690
β-D-Glucopyranuronides, hydrolysis by glucuronidase (Levvy, G. A. & Marsh, C. A.) 690
Glucosamine, estimation by alkaline decomposition (Tracey, M. V.) 265
D-Glucosamine as component of H substance (Annison, E. F. & Morgan, W. T. J.) 247
*iso*Glucosamines, *N*-substituted, preparation of (Gottschalk, A.) 455
Glucose, blood, effect of cortisone and salicylate on (Smith, M. J. H.) 649
Glucose, effect on brain phosphates *in vitro* (McIlwain, H.) 289
Glucose, fermentation by rumen bacteria (Sijpesteijn, A. K. & Elsden, S. R.) 41
Glucose, in metabolism of mammary gland slices (Terner, C.) 229
D-Glucose, inhibition of synthesis of polysaccharide from glucose-1-phosphoric acid by (Campbell, P. N., Creasey, N. H. & Parr, C. W.) 448
Glucose, 3-methyl, metabolic studies with (Campbell, P. N. & Young, F. G.) 439; (Campbell, P. N.) 44
Glucose-1-phosphate in milk (McGeown, M. G. & Malpress, F. H.) 606
Glucose-6-phosphate, formation from ribose-5-phosphate (Glock, G. E.) 575
Glucose-1-phosphoric acid, synthesis of polysaccharide from (Campbell, P. N., Creasey, N. H. & Parr, C. W.) 448
N-Glucosides, preparation of *N*-substituted fructosamines from (Gottschalk, A.) 455
Glucosylamines, *N*-aryl, biochemical properties of *N*-substituted fructosamines derived from (Gottschalk, A.) 455
N-Glucosylamino-acids, biochemical properties of *N*-substituted fructosamines derived from (Gottschalk, A.) 455
Glucuronic acid, conjugation of corticosteroids with (Bayliss, R. I. S.) 63
Glucuronic acid, conjugation of phenols with (Bray, H. G., Humphris, B. G., Thorpe, W. V., White, K. & Wood, P. B.) 416
Glucuronic acid, fermentation by *Escherichia coli* (Heald, P. J.) 378
Glucuronic acid-1-phosphate, α- or β-, condensation of *o*-amino-phenol with (Levvy, G. A. & Marsh, C. A.) 690
β-Glucuronidase activity, effects of deoxyribonucleic acid and suramin on (Smith, E. E. B. & Mills, G. T.) i
β-Glucuronidase in peripheral nerve during Wallerian degeneration (Hollinger, D. M. & Rossiter, R. J.) 659
β-Glucuronidase, inhibition of (Levvy, G. A.) 464
β-Glucuronidase, preparation and properties of (Levvy, G. A.) 464
β-Glucuronidase, specificity of (Levvy, G. A. & Marsh, C. A.) 690
Glucuronides, excretion by rabbits (Bray, H. G., Humphris, B. G., Thorpe, W. V., White, K. & Wood, P. B.) 416
Glutamate, effect on brain phosphates *in vitro* (McIlwain, H.) 289
Glutamic acid in invertebrate nerves (Lewis, P. R.) 330
Glutamic acid, terminal, as residues of fibrin and fibrinogen (Lorand, L. & Middlebrook, W. R.) 196
L-Glutaminase and renal ammonia production in the rat (Davies, B. M. A. & Yudkin, J.) 407
L-Glutamine as precursor of urinary ammonia in the rat (Davies, B. M. A. & Yudkin, J.) 407
Glutamine, effect on brain phosphates *in vitro* (McIlwain, H.) 289
Glutathione, behaviour in rat bone marrow and spleen under various conditions (Lutwak-Mann, C.) 356
Glutathione, reduced, the coenzyme of glyoxalase (Crook, E. M. & Law, K.) 492
Glycerides, fatty acids of, in choline-deficient rats (Siva Raman, C.) 320
Glycerides, horse liver, comparison with phospholipins (Shorland, F. B., Bruce, L. W. & Jessop, S. A.) 400
Glycerides in livers of rats consuming a diet free from cholesterol (Ridout, J. H., Lucas, C. C., Patterson, J. M. & Best, C. H.) 79
Glycerol, effect on incorporation of labelled acetate in fatty acids (Balmain, J. H., Folley, S. J. & Glascock, R. F.) 301
Glycerol, incorporation of [*carboxy*-^{14}C]acetate into, by the lactating goat udder (Popják, G., Glascock, R. F. & Folley, S. J.) 472
Glycine as precursor of urinary ammonia in the rat (Davies, B. M. A. & Yudkin, J.) 407
Glycine in invertebrate nerves (Lewis, P. R.) 330
Glycine, metabolic conversion to serine (Campbell, P. N. & Work, T. S.) 217
Glycine, oxidase and renal ammonia production in the rat (Davies, B. M. A. & Yudkin, J.) 407
Glycine, reaction with 1-fluoro-2:4-dinitrobenzene (Krol, S.) 227
Glycine, terminal, as residues of fibrin and fibrinogen (Lorand, L. & Middlebrook, W. R.) 196
[α-^{14}C]Glycine, uptake in globin and porphyrin (Muir, H. M., Neuberger, A. & Perrone, J. C.) 87
Glycogen content of the liver of rats, effect of 3-methyl glucose on (Campbell, P. N. & Young, F. C.) 439
Glycogen, liver, effect of cortisone and salicylate on (Smith, E. E. B.) 649
Glycogen of the ciliate *Tetrahymena pyriformis* (Manners, D. J. & Ryley, J. F.) 480

Glycogenolytic factor in insulin samples and pancreas from different species (Audy, G. & Kerly, M.) 70
Glycolysis, anaerobic and aerobic, in lactating mammary gland and in nervous tissue (Terner, C.) 229
Glycolysis, effect of malononitrile on (Stern, J., Weil-Malherbe, H. & Green, R. H.) 114
*Glycosides and a glycosidase in the madder plant (Trim, A. R. & Hill, R.) xiii
Glycosuria induced by cortisone in the normal rat, effect of salicylate on (Smith, M. J. H.) 649
Glycyl chain of insulin, amino-acid sequence in (Sanger, F. & Thompson, E. O. P.) iii
Glycyl-peptide bonds in fibrinogen, fission by thrombin (Lorand, L. & Middlebrook, W. R.) 196
Glyoxalase, role of the components (Crook, E. M. & Law, K.) 492
Goat udder, lactating, incorporation of [*carboxy*-^{14}C]acetate into lactose and glycerol by (Popják, G., Glascock, R. F. & Folley, S. J.) 472
Goats' milk during lactation, partition of carotenoids and vitamin A in (Chanda, R.) ii
Grasses from young and mature species, biological values and digestibilities of, by the Thomas-Mitchell method (Davies, M., Evans, W. C. & Parr, W. H.) xxiii
Grease, hair, of the skin, volatile acids in (Brouwer, E. & Nijkamp, H. J.) 54
Growth factors for micro-organisms in tissues of pernicious anaemia patients and controls (Girdwood, R. H.) 58
*Growth hormone, action of cultures on chick embryo heart (Leslie, I.) xxxii
Growth hormone, action on embryonic tissue growing *in vitro* (Leslie, I.) xxi
Growth hormone free from diabetogenic properties (Reid, E.) ix
Growth hormone, influence on the protein composition of rat muscle (Hume, B. J.) xi
Guinea pig, glycogenolytic-factor content of pancreatic extracts of (Audy, G. & Kerly, M.) 77
Guinea pigs, adenylpyrophosphates in the fatty livers of (Rowles, S. L.) xxxi

Haemoglobin formation in rat and rabbit, isotope studies of (Muir, H. M., Neuberger, A. & Perrone, J. C.) 87
Haemoglobin, reaction with hydrogen peroxide (Dalziel, K. & O'Brien, J. R. P.) v
Haemolysis test, dialuric acid, for vitamin E deficiency in rats (Heard, D. H., Moore, T. & Sharman, I. M.) i
Haemolytic complement, action *in vitro* and *in vivo* of some nitrogen mustards on (Watkins, W. M. & Wormall, A.) 365
Hair grease of the skin, volatile acids in (Brouwer, E. & Nijkamp, H. J.) 54
Hair, human, application of microbiological techniques to hydrolysates of (Lang, J. M. & Lucas, C. C.) 84
Hair, volatile fatty acids in grease from (Brouwer, E. & Nijkamp, H. J.) 54
*Heart, chick embryo, cortisone, growth hormone and insulin action on cultures of (Leslie, I.) xxxii
Heart-muscle aconitase, rate of formation of *iso*citrate and *cis*-aconitase from citrate in the presence of (Krebs, H. A. & Holzach, O.) 527
Helix, D-amino-acid oxidase in the liver of (Blaschko, H. & Hawkins, J.) 306
Heparin, isolation from hog mucosae (Smith, H., Gallop, R. C., Harris-Smith, P. W. & Stanley, J. L.) 23
Heparin, virulence-enhancing activity of (Smith, H., Gallop, R. C. & Stanley, J. L.) 15; (Smith, H., Gallop, R. C., Harris-Smith, P. W. & Stanley, J. L.) 23
Hexamethylenetetramine, protection of complement against inactivation by HN2 (Watkins, W. M. & Wormall, A.) 365
Hexosamine in hyaluronic acid (Ogston, A. G. & Stanier, J. E.) 149
Hexosemonophosphate, formation from ribose-5-phosphate by liver fractions (Glock, G. E.) 575
Hexuronic acid (Ogston, A. G. & Stanier, J. E.) 149
Hexuronic acids, conjugates of (Levvy, G. A. & Marsh, C. A.) 690
Hog gastric mucin, isolation of heparin from (Smith, H., Gallop, R. C., Harris-Smith, P. W. & Stanley, J. L.) 23
Hog gastric mucin, virulence-enhancing factors in (Smith, H., Gallop, R. C., Harris-Smith, P. W. & Stanley, J. L.) 23
Homarus vulgaris, free amino-acids of (Lewis, P. R.) 330
Hormone, growth, *see* growth hormone
Horse, fat, fatty acid composition of (Shorland, F. B., Bruce, L. W. & Jessop, A. S.) 400
Horse serum cholinesterase, hydrolysis of succinylcholines by (Whittaker, V. P. & Wijesundera, S.) 475
Hyaluronic acid from ox synovial fluid, preparation and composition of (Ogston, A. G. & Stanier, J. E.) 149
Hyaluronidase, effect on hyaluronic acid (Ogston, A. G. & Stanier, J. E.) 149
Hydrogen peroxide formation in oxidations catalysed by plant α-hydroxyacid oxidase (Kenten, R. H. & Mann, P. J. G.) 130
Hydrogen peroxide in oxidation of uric acid by uricase (Bentley, R. & Neuberger, A.) 694
Hydrogen peroxide production by plant oxidases (Kenten, R. H. & Mann, P. J. G.) 125
Hydrogen peroxide, reaction of haemoglobin with (Dalziel, K. & O'Brien, J. R. P.) v
Hydrogen peroxide, reaction of methaemoglobin with (Dalziel, K. & O'Brien, J. R. P.) vi
Hydrogen peroxide, reaction with metmyoglobin (George, P. & Irvine, D. H.) 511
Hydrogen peroxide, test for, by the oxidation of Mn^{2+} by peroxidase systems (Kenten, R. H. & Mann, P. J. G.) 125
α-Hydroxyacid oxidase examination, with Mn^{2+} (Kenten, R. H. & Mann, P. J. G.) 125
α-Hydroxyacid oxidase, plant, hydrogen peroxide formation in oxidations catalysed by (Kenten, R. H. & Mann, P. J. G.) 130
Hydroxybenzoic acids, mono-, metabolism by soil bacteria (Walker, N. & Evans, W. C.) xxiii
7α-Hydroxycholesterol, possible presence in human sebum (Mackenna, R. M. B., Wheatley, V. R. & Wormall, A.) 161
7α-Hydroxycholesterol possible presence in human sebum (Festenstein, G. N. & Morton, R. A.) 168
L-3-Hydroxykynurenine as a tryptophan metabolite (Dalgliesh, C. E.) 3
5-Hydroxymethylfurfuraldehyde, formation from *N*-substituted fructosamines (Gottschalk, A.) 455
(2-Hydroxy-5-phenylbenzyl)-trimethylammonium bromide, velocity constants for the reactions between the pseudo cholinesterase of human serum and the carbamate of (Myers, D. K.) 46
5-Hydroxytryptamine, enzymic oxidation in mammalian and cephalopod tissue (Blaschko, H.) x
5-Hydroxytryptamine, identification and its distinction from substance P (Dalgliesh, C. E., Toh, C. C. & Work, T. S.) xxx
Hyperglycaemia induced by cortisone in the normal rat, effect of salicylate on (Smith, M. J. H.) 649
Hypoglycaemia, insulin, blood adrenaline levels during (Weil-Malherbe, H.) xi

Immunochemistry, studies in (Annison, E. F. & Morgan, W. T. J.) 247
Inactivation, enzymic, of cozymase in mammary tissue (Terner, C.) 229

Indicator yellow$_2$, analogues from retinene$_2$ (Cama, H. R., Dalvi, P. D., Morton, R. A. & Salah, M. K.) 540
Inhibitor, reaction of enzymes with (Myers, D. K.) 46
Inhibitor, reversible, of pseudo cholinesterase, determination of reaction velocity constants with (Myers, D. K.) 46
Inhibitors of the nicotinic acid-degrading enzyme (Pinsky, A. & Michaelis, M.) 33
*Insulin, action on cultures of chick embryo heart (Leslie, I.) xxxii
Insulin, action on embryonic tissue growing *in vitro* (Leslie, I.) xxi
Insulin, amide and free carboxyl groups of (Chibnall, A. C. & Rees, M. W.) iii
Insulin, amino-acid sequence in the glycyl chain of (Sanger, F. & Thompson, E. O. P.) iii
Insulin, effect on incorporation of labelled acetate into fatty acids (Balmain, J. H., Folley, S. J. & Glascock, R. F.) 301
Insulin hypoglycaemia, blood adrenaline levels during (Weil-Malherbe, H.) xi
Insulin samples, content of glycogenolytic factor in (Audy, G. & Kerly, M.) 70
Intestine, hog, preparation of secretion from (Jorpes, J. E. & Mutt, V.) 328
Invertase, absence from preparations from *Clostridium butyricum* and *Streptococcus* filtrates and amylases of fractions of sheep rumen (Hobson, P. N. & Macpherson, M.) 671
Iodoacetate, effect on phospholinase of brain (Narayanaswami, A.) 295
Ionizing radiation, changes in the content of phosphorus compounds and reducing substances in bone marrow and spleen caused by (Lutwak-Mann, C.) 356
Ionophoresis on paper, separation of the constituent nucleotides of ribonucleic acid by (Davidson, J. N. & Smellie, R. M. S.) 594
Irradiation, neutron, of vitamin B_{12} (Smith, E. Lester). 384

Keratin in human hair (Lang, J. M. & Lucas, C. C.) 84
α-Keto acids, chromatographic separation of (Hockenhull, D. J. D. & Floodgate, G. D.) 38
α-Keto acids, reagents for (Hockenhull, D. J. D. & Floodgate, G. D.) 38
Ketogenesis in homogenates of liver (Blakley, R. L.) 269
Ketopentosephosphate, formation from 6-phosphogluconate (Glock, G. E.) 575
Ketopentosephosphate, formation from 6-phosphogluconate and from ribose-5-phosphate by liver fractions (Glock, G. E.) 575
Kidney, citrovorum factor and pteroylglutamic acid in, during pernicious anaemia (Girdwood, R. H.) 58
Kidney enzymes in the rat, effect of chronic acidosis and alkalosis on (Davies, B. M. A. & Yudkin, J.) 407
Kidney, metabolism of malononitrile by (Stern, J., Weil-Malherbe, H. & Green, R. H.) 114
Kinetic studies of the metabolism of foreign organic compounds (Bray, H. G., Humphris, B. G., Thorpe, W. V., White, K. & Wood, P. B.) 412, 416, 419; (Bray, H. G., Thorpe, W. V. & White, K.) 423
Kinetics of two-stage enzyme reactions (Whittaker, V. P. & Wijesundera, S.) 475
Kynurenic acid as a tryptophan metabolite (Dalgliesh, C. E.) 3
L-Kynurenine as a tryptophan metabolite (Dalgliesh, C. E.) 3

Lactalbumin, biosynthesis of (Campbell, P. N. & Work, T. S.) 217
Lactate, [^{15}N]ammonium, metabolism in cats (Kornberg, H. L. & Davies, E. R.) 345
Lactating cow, effect of thyrotrophin on the metabolism of carotenoids and vitamin A in (Chanda, R., Clapham, H. M. & Owen, E. C.) xvii
Lactating mammary gland, anaerobic and aerobic glycolysis in (Terner, C.) 229
Lactation, partition of carotenoids and vitamin A in the milk of cows and goats during (Chanda, R.) ii
Lactic acid formation from methyl glyoxal (Crook, E. M. & Law, K.) 492
Lactic acid formation in mammary tissue (Terner, C.) 229
Lactic acid in rat brain after malononitrile injection (Stern, J., Weil-Malherbe, H. & Green, R. H.) 114
Lactic dehydrogenase activity of ciliate homogenates (Ryley, J. F.) 483
Lactobacillus leichmannii, growth factors for in the tissues of pernicious anaemia patients and controls (Girdwood, R. H.) 58
Lactoglobulin, biosynthesis of (Campbell, P. N. & Work, T. S.) 217
Lactones, sugar acid, inhibition of β-glucuronidase by (Levvy, G. A.) 464
Lactose, incorporation of [*carboxy*-^{14}C]acetate into, by the lactating goat udder (Popják, G., Glascock, R. F. & Folley, S. J.) 472
Lactose-phosphate in milk (McGeown, M. G. & Malpress, F. H.) 606
Lactose, synthesis by the mammary gland (McGeown, M. G. & Malpress; F. H.) 606
Lamellibranchs, D-amino-acid oxidase in the liver of (Blaschko, H. & Hawkins, J.) 306
Lead poisoning, presence of coproporphyrin III in urine but not in faeces during (Weatherall, M.) 683
Lead-treated rabbits, fate of intravenously administered coproporphyrin III in (Weatherall, M.) 683
L-Leucine as precursor of urinary ammonia in the rat (Davies, B. M. A. & Yudkin, J.) 407
Leuconostoc citrovorum, growth factors for in the tissues of pernicious anaemia patients and controls (Girdwood, R. H.) 58
Liebermann-Buchard reaction, determination of cholesterol by (Kenny, A. P.) 611
Light, effect on xanthine oxidase activity (Siegel, S. M. & Weintraub, R. L.) 324
Lignin in young plants (Meyer, H. & Bondi, A.) 95
Ling cod, vitamins A in the liver of (Cama, H. R., Dalvi, P. D., Morton, R. A., Salah, M. K., Steinberg, G. R. & Stubbs, A. L.) 535
Lipase, pancreatic, effect of zinc on (Sadasivan, V.) 452
Lipid phosphorus, behaviour in rat bone marrow and spleen under various conditions (Lutwak-Mann, C.) 356
Lipid production in *Phycomyces* species (Goodwin, T. W. & Griffiths, L. A.) 499
Lipids from fatty tissues, muscle and liver, the component fatty acids of (Shorland, F. B., Bruce, L. W. & Jessop, A. S.) 400
Lipids in the rat, effect of choline deficiency on the fatty acids of (Siva Raman, C.) 320
Lipids, liver, effect of varying amounts of dietary cholesterol and choline upon (Ridout, J. H., Lucas, C. C., Patterson, J. M. & Best, C. H.) 79
Lipoproteins of tissues, effect of freezing and drying on (Lea, C. H. & Hawke, J. C.) 105
Lipovitellin, influence of water on the stability of, and the effects of freezing and drying (Lea, C. H. & Hawke, J. C.) 105
Liquid-gas partition chromatography (James, A. T., Martin, A. J. P. & Smith, G. Howard) 238
Liver alcohol dehydrogenase and ester formation (Kendal, L. P. & Ramanathan, A. N.) 430
Liver, amine oxidase in (George, P. & Irvine, D. H.) 511
Liver cell fractions, incorporation of ^{32}P and ^{14}C into the nucleic acids of (Smellie, R. M. S. & McIndoe, W. M.) xxii

Liver cell, influence of energy intake on ribonucleic acid metabolism in different fractions of (Wikramanayake, T. W., Heagy, F. C. & Munro, H. N.) xxxii
*Liver cell nuclei, composition of the ribonucleic acids of (Crosbie, G. W. & Smellie, R. M. S.) xxxii
*Liver cell nuclei, incorporation of ^{32}S and ^{14}C into (Leaf, G., McIndoe, W. M. & Smellie, R. M. S.) xxxii
Liver, citrovorum factor and pteroylglutamic acid during pernicious anaemia (Girdwood, R. H.) 58
Liver, component fatty acids of lipids from (Shorland, F. B., Bruce, L. W. & Jessop, A. S.) 400
Liver fractions, formation and breakdown of pentosephosphates by (Glock, G. E.) 575
Liver glycogen, effect of cortisone and salicylate on (Smith, M. J. H.) 649
Liver homogenates, ketogenesis in (Blakley, R. L.) 269
Liver homogenates, sheep, action on quinine, quinidine, cinchonine and cinchonidine (Fraser, G. P. & Kermack, W. O.) xxvi
Liver lipids, effect of varying amounts of dietary cholesterol and choline upon (Ridout, J. H., Lucas, C. C., Patterson, J. M. & Best, C. H.) 79
Liver lipids in the rat, effect of choline deficiency on the fatty acids of (Siva Raman, C.) 320
Liver, metabolism of malononitrile by (Stern, J., Weil-Malherbe, H. & Green, R. H.) 114
Liver, molluscan, D-amino-acid oxidase in (Blaschko, H. & Hawkins, J.) 306
Liver preparations, mouse, hydrolysis by glucuronidase (Levvy, G. A. & Marsh, C. A.) 690
Liver, rat, effect of 3-methyl glucose on the glycogen content of (Campbell, P. N. & Young, F. G.) 439
Liver, rat, effect of zinc on the fat content of (Sadasivan, V.) 452
Liver tissue, incorporation of radioactive phosphorus into the ribonucleotide fraction of (Davidson, J. N. & Smellie, R. M. S.) 599
Livers, fatty, of guinea pigs produced by carbon tetrachloride, adenylpyrophosphates in (Rowles, S. L.) xxxi
Loligo forbesi, free amino-acids of (Lewis, P. R.) 330
Lophius piscatorius, glycogenolytic factor content of islet tissue from (Audy, G. & Kerly, M.) 77
Lucerne (*Medicago sativa*), biological values and digestibility of (Davies, M., Evans, W. C. & Parr, W. H.) xxiii
Lysine in fibrin and fibrinogen (Lorand, L. & Middlebrook, W. R.) 196
Lysine, isolation from gelatin (Robson, W. & Selim, A. S. M.) 318

*Madder plant, glycosides and a glycosidase in (Trim, A. R. & Hill, R.) xiii
Magnesium, effect on the succinic oxidase system (Slater, E. C. & Bonner, W. D. jun.) 185
Magnesium ions, effect on phosphokinase of brain (Narayanaswami, A.) 295
Magnetic measurements of myoglobin division (George, P. & Irvine, D. H.) 511
Maia squinado, free amino-acids of (Lewis, P. R.) 330
Malonic ester synthesis applied to bile acids (Bridgwater, R. J. & Haslewood, G. A. D.) 588
Malononitrile, effect on tissue metabolism (Stern, J., Weil-Malherbe, H. & Green, R. H.) 114
Maltase, absence from preparations from *Clostridium butyricum* and *Streptococcus* filtrates and amylases of fractions of sheep rumen (Hobson, P. N. & Macpherson, M.) 671
Manganese, effect on the succinic oxidase system (Slater, E. C. & Bonner, W. D. jun.) 185
Manganese, oxidation by plant enzyme systems (Kenten, R. H. & Mann, P. J. G.) 125
Mammary gland, lactating, anaerobic and aerobic glycolysis in (Terner, C.) 229
Mammary gland slices from ruminants and non-ruminants, fatty acid synthesis by (Balmain, J. H., Folley, S. J. & Glascock, R. F.) 301
Mammary gland, synthesis of lactose by (McGeown, M. G. & Malpress, F. H.) 606
Manganese ions, effect on phosphokinase of brain (Narayanaswami, A.) 295
Marrow-bone, phosphorus metabolism in (Lutwak-Mann, C.) 356
Medicago sativa (lucerne), biological values and digestibility of (Davies, M., Evans, W. C. & Parr, W. H.) xxiii
(−)-Menthol, activation of glucuronidase by (Levvy, G. A. & Marsh, C. A.) 690
Mercapturic acid, formation from 2:3:5:6-tetrachloronitrobenzene in the rabbit (Bray, H. G., Hybs, Z., James, S. P. & Thorpe, W. V.) xviii
Metabolism of foreign organic compounds, kinetic studies of (Bray, H. G., Humphris, B. G., Thorpe, W. V., White, K. & Wood, P.B.) 412, 416, 419; (Bray, H. G., Thorpe, W. V. & White, K.) 423
Metaphysis, enzyme levels in (Dixon, T. F. & Perkins, H. R.) 260
Methaemoglobin cells, activity of (Holton, F. A.) 506
Methaemoglobin, reaction with hydrogen peroxide (Dalziel, K. & O'Brien, J. R. P.) vi
Methanol, influence on enzymic dismutation of formaldehyde by liver enzymes (Kendal, L. P. & Ramanathan, A. N.) 430
L-Methionine, radioactive, preparation of (Williams, R. B. & Dawson, R. M. C.) 314
Methyl carbamate, metabolism by normal and tumour-bearing rats (Boyland, E. & Papadopoulos, D.) 267
3-Methyl glucose, metabolic studies with (Campbell, P. N. & Young, F. G.) 439; (Campbell, P. N.) 444
Methylamine, gas-liquid partition chromatography of (James, A. T., Martin, A. J. P. & Smith, G. Howard) 238
Methylgloxal, interaction with reduced glutathione (Crook, E. M. & Law, K.) 492
α-Methylglucoside, inhibition of synthesis of polysaccharides from glucose-1-phosphoric acid by (Campbell, P. N., Creasey, N. H. & Parr, C. W.) 448
(+)-14-Methylhexadecanoic acid, isolation of (Hansen, R. P., Shorland, F. B. & Cooke, N. J.) 203
Metmyoglobin, acidic, ionization of (George, P. & Hanania, G.) 517
Metmyoglobin, reaction with hydrogen peroxide (George, P. & Irvine, D. H.) 511
Micro glass electrode (Hartree, E. F.) 619
Microburettes, designs for (James, A. T., Martin, A. J. P. & Smith, G. Howard) 238
Micro-organisms, studies in the biochemistry of (Birkinshaw, J. H.) 283
Milk glycerides, goat, specific activity of glycerol isolated from (Popják, G., Glascock, R. F. & Folley, S. J.) 472
Milk of cows and goats during lactation, partition of carotenoids and vitamin A in (Chanda, R.) ii
Milk, sugar-phosphate esters of (McGeown, M. G. & Malpress, F. H.) 606
Mitochondria, secretory activity of (Bartley, W. & Davies, R. E.) xx
Molluscs, D-amino-acid oxidase in the livers of (Blaschko, H. & Hawkins, J.) 306
Molluscs, cephalopod, amino-acids in the nerves of (Lewis, P. R.) 330
Molybdate complex for extraction of ^{32}P by *iso*butanol (Ennor, A. H. & Rosenberg, H.) 591
Mucin, hog gastric, isolation of heparin from (Smith H., Gallop, R. C., Harris-Smith, P. W. & Stanley, J. L.) 23
Mucin, hog gastric, virulence-enhancing activity of (Smith, H., Gallop, R. C. & Stanley, J. L.) 15
Mucin, hog gastric, virulence-enhancing factors in (Smith, H., Gallop, R. C., Harris-Smith, P. W. & Stanley, J. L.) 23

Mucin of ox synovial fluid (Ogston, A. G. & Stanier, J. E.) 149
Mucoid, laevorotatory, H substance in (Annison, E. F. & Morgan, W. T. J.) 247
Mucoitin disulphuric acid, isolation from crude hog gastric mucin (Smith, H., Gallop, R. C., Harris-Smith, P. W. & Stanley, J. L.) 23
Mucosa, hog pyloric, preparation of gastrin from (Jorpes, J. E., Jalling, O. & Mutt, V.) 327
Multiple-dose assay, statistical examination of (Please, N. W.) 75
Muscle aconitase, heart, rate of formation of *iso*citrate and *cis*-aconitase from citrate in the presence of (Krebs, H. A. & Holzach, O.) 527
Muscle aldolase, inactivity against ribose-5-phosphate (Glock, G. E.) 575
Muscle, chick, changes during development in the nucleoprotein content of (Robinson, D. S.) 628
Muscle, chick, changes during development in the protein composition of (Robinson, D. S.) 621
Muscle, component fatty acids of lipids from (Shorland, F. B., Bruce, L. W. & Jessop, A. S.) 400
Muscle phosphorylase preparation, effect of 3-methyl glucose on polysaccharide synthesis from glucose-1-phosphate with (Campbell, P. N.) 444
Muscle phosphorylase, specificity of (Campbell, P. N., Creasey, N. H. & Parr, C. W.) 448
Muscle, rat, influence of growth hormone on the protein composition of (Hume, B. J.) xi
Muscle stimulants from the gastro-intestinal tract (Dalgliesh, C. E., Toh, C. C. & Work, T. S.) xxx
Mustard sulphoxide, effect on the metabolism of bone marrow and spleen (Lutwak-Mann, C.) 356
Mustards, nitrogen, action *in vitro* and *in vivo* on haemolytic complement (Watkins, W. M. & Wormall, A.) 365
Mutton fat, branched-chain fatty acids of (Hansen, R. P., Shorland, F. B. & Cooke, N. J.) 203
Myelotoxic substances, effects on constituents of bone marrow and spleen (Lutwak-Mann, C.) 356
Myofibrillar protein in chick muscle, changes during development (Robinson, D. S.) 628, 633
Myoglobin, bile pigment formation *in vitro* from (Kench, J. E. & Gardikas, C.) xv
Myokinase, equilibrium constant of (Eggleston, L. V. & Hems, R.) 156
Mytilus edulis, D-amino-acid oxidase in the liver of (Blaschko, H. & Hawkins, J.) 306

Naphthalene black, staining of serum proteins on filter paper with (Latner, A. L.) xxix
Nephrotic human albumins, sedimentation and diffusion at a low concentration (Charlwood, P. A.) 279
Nerve, invertebrate, free amino-acids of (Lewis, P. R.) 330
Nerve, peripherial, during Wallerian degeneration chemical studies of (Hollinger, D. M., Rossiter, R. J. & Upmalis, H.) 652; (Hollinger, D. M. & Rossiter, R. J.) 659
Nervous tissue, anaerobic and aerobic glycolysis in (Terner, C.) 229
Neutron irradiation of vitamin B_{12} (Smith, E. Lester) 384
Nicotinamide, effect on glycolysis of mammary gland (Terner, C.) 229
Nicotinic acid, oxidation of by *Pseudomonas fluorescens* (Pinsky, A. & Michaelis, M.) 33
*iso*Nicotinic acid hydrazide, detection and identification of (Cuthbertson, W. F. J. & Ireland, D. M.) xxxiv
Nisin, antibiotic, purification and nature of (Berridge, N. J., Newton, G. G. F. & Abraham, E. P.) 529
Nitrate, uptake by *Chlorella vulgaris* (Fowden, L.) 310
Nitrification in soil (Lees, H.) 134
Nitrifying organisms, biochemistry of (Lees, H.) 134; (Hofman, T. & Lees, H.) 140
Nitriles, effect on tissue metabolism (Stern, J., Weil-Malherbe, H. & Green, R. H.) 114
Nitrite, bacterial formation of (Lees, H.) 134
Nitrogen in protein fractions separated by electrophoresis in filter paper, direct determination of (Anderson, A. B.) x
Nitrogen mustards, cross-linking of serum albumins by (Alexander, P., Fox, M., Stacey, K. A. & Smith, L. F.) 177
Nitrosomonas, ammonia oxidation by (Lees, H.) 134
Nitrosomonas, free-energy efficiency of (Hofman, T. & Lees, H.) 140
Nitrosomonas, metabolism of (Hofman, T. & Lees, H.) xix, xx, 140
Nomenclature of amino-acids and vitamins 1
Nu 683 *see* (2-Hydroxy-5-phenylbenzyl)-trimethylammonium bromide
*Nuclei, liver cell, composition of the ribonucleic acids of (Crosbie, G. W. & Smellie, R. M. S.) xxxii
*Nuclei, liver cell, incorporation of ^{35}S and ^{14}C into the proteins of (Leaf, G., McIndoe, W. M. & Smellie, R. M. S.) xxxii
Nucleic acid fractions, changes during tryptophan-tryptophanase adaptation (Hakim, A. A. & Happold, F. C.) xxv
Nucleic acids, behaviour in rat bone marrow and spleen under various conditions (Lutwak-Mann, C.) 356
Nucleic acids of liver cell fractions, incorporation of ^{32}P and ^{14}C into (Smellie, R. M. S. & McIndoe, W. M.) xxii
Nucleoprotein content of chick muscle, changes during development (Robinson, D. S.) 628
5-Nucleotidase in peripheral nerves during Wallerian degeneration (Hollinger, D. M., Rossiter, R. J. & Upmalis, H.) 652
Nucleotides, cyclic, production by ribonuclease and by alkaline hydrolysis (Markham, R. &. Smith, J. D.) 552
Nucleotides of ribonucleic acid, separation by ionophoresis on paper of (Davidson, J. N. & Smellie, R. M. S.) 594
*Nucleus, cell, in rat tissues, deoxyribonucleic acid content of (Frazer, S. C., Thomson, R. Y. & Heagy, F. C.) xxxii

Obituary notice for Henry Stanley Raper (1882–1951) (Kendal, L. P.) 353
Octanoate oxidation (Blakley, R. L.) 269
Octopus vulgaris, D-amino-acid oxidase in the liver of (Blaschko, H. & Hawkins, J.) 306
Oil, cotton seed, as a co-factor in gastric cancer, polymerization of (Chalmers, J. G.) xxxi
Oleate, dehydrogenation by suspensions from rat liver homogenate (Blakley, R. L.) 269
Oleic acid, variations in content for butterfat (Hansen, R. P. & Shorland, F. B.) 207
Ophiodon elongatus, vitamins A in the liver of (Cama, H. R., Dalvi, P. D., Morton, R. A., Salah, M. K., Steinberg, G. R. & Stubbs, A. L.) 535
Oppenauer oxidation of vitamin A_1 (Cama, H. R., Field, A. C., Glover, J., Morton, R. A. & Salah, M. K.) 548
Organophosphorus inhibitors, determination of impurities in (Aldridge, W. N. & Davison, A. N.) 663
Orobanche germination factor (Brown, R., Greenwood, A. D., Johnson, A. W., Lansdown, A. R., Long, A. G. & Sunderland, N.) 571
Ouabagenin, distribution in seeds of *Strophanthus* spp. (Bush, I. E. & Taylor, D. A. H.) 643
Ovarian cyst fluids, H substance from (Annison, E. F. & Morgan, W. T. J.) 247
Oxalate formation from glyoxalate by enzyme-catalysed oxidation (Kenten, R. H. & Mann, P. J. G.) 130
Oxidase, amine, in liver (George, P. & Irvine, D. H.) 511
Oxidase, D-amino-acid, in the molluscan liver (Blaschko, H. & Hawkins, J.) 306
Oxidase, α-hydroxyacid, hydrogen peroxide formation in oxidations catalysed by, in plants (Kenten, R. H. & Mann, P. J. G.) 130

Oxidase system, succinic, effect of fluoride on (Slater, E. C. & Bonner, W. D. jun.) 185
Oxidase, xanthine, effect of light on the activity of (Siegel, S. M. & Weintraub, R. L.) 324
Oxidations, biological, role of carbonium ions as intermediates in (Bentley, R. & Neuberger, A.) 694
Oxidations catalysed by plant α-hydroxyacid oxidase, hydrogen peroxide formation in (Kenten, R. H. & Mann, P. J. G.) 130
Oxygen, effect on brain phosphates *in vitro* (McIlwain, H.) 289

Palinurus vulgaris, free amino-acids of (Lewis, P. R.) 330
Pancreas of different species, content of glycogenolytic factor in (Audy, G. & Kerly, M.) 77
Pancreatic lipase, effect of zinc on (Sadasivan, V.) 452
Pasteur reaction, effect of 2:4-dinitrophenol on (Terner, C.) 229
Penicillium multicolor G.-M. and P., metabolic products of (Birkinshaw, J. H.) 283
Penicillium viridicatum Westling, viridicatin a metabolic product of (Cunningham, K. G. & Freeman, G. G.) xxvi
Pentacosane in human sebum (Mackenna, R. M. B., Wheatley, V. R. & Wormall, A.) 161
Pentosephosphate, formation and breakdown of by liver fractions (Glock, G. E.) 575
Pentosephosphate, oxidation of (Glock, G. E.) 575
Pepsin digestion, effect on the spectrum of ribonuclease (Shugar, D.) 142
Peptide linkages, effect on the spectrum of tyrosine in proteins (Shugar, D.) 142
Peptides, determination of the amino-acid sequence in (Bailey, J. Leggett) iv
Periodic acid, oxidation of steroid 17:20-diols by (Cox, R. I.) 339
Peripheral nerve during Wallerian degeneration, chemical studies of (Hollinger, D. M., Rossiter, R. J. & Upmalis, H.) 652; (Hollinger, D. M. & Rossiter, R. J.) 659
Periplogenin, distribution in seeds of *Strophanthus* spp. (Bush, I. E. & Taylor, D. A. H.) 643
Permeability, anion, of erythrocytes, alleged effect of acid phosphate on (Holton, F. A.) 506
Pernicious anaemia patients, growth factors for micro-organisms in the tissues of (Girdwood, R. H.) 58
Peroxidase, bile pigment formation *in vitro* from (Kench, J. E.) xxvii
Peroxidase, heat-labile, of *Tetrahymena pyriformis* (Ryley, J. F.) 483
Peroxidase systems, oxidation of Mn^{2+} by hydrogen peroxide from (Kenten, R. H. & Mann, P. J. G.) 125
'Peroxidatic' role for catalase (George, P.) xix
pH, effect on growth of *Aerobacter aerogenes* and *Escherichia coli* in synthetic media (Dagley, S., Dawes, E. A. & Foster, S. M.) xxi
Phenolic groups of tyrosine, dissociation in ribonuclease (Shugar, D.) 142
Phenols, conjugation with glucuronic acid (Bray, H. G., Humphris, G. B., Thorpe, W. V., White, K. & Wood, P. B.) 416
Phenols, conjugation with sulphuric acid (Bray, H. G., Humphris, B. G., Thorpe, W. V., White, K. & Wood, P. B.) 419
Phenols, formation in tissues (Bray, H. G., Humphris, B. G., Thorpe, W. V., White, K. & Wood, P. B.) 412
Phenols, mathematical model expressing the metabolic fate of (Bray, H. G., Thorpe, W. V. & White, K.) 423
o-Phenylenediamine, as reagent for keto acids (Hockenhull, D. J. D. & Floodgate, G. D.) 38
α-Phenylglucoside, inhibition of synthesis of polysaccharide from glucose-1-phosphoric acid by (Campbell, P. N., Creasey, N. H. & Parr, C. W.) 448
Phenylglyoxal, interaction with reduced glutathione (Crook, E. M. & Law, K.) 492
Phenylpropane basic structural unit of lignin (Meyer, H. & Bondi, A.) 95
N-Phenylurea, hydroxylation of (Bray, H. G., Humphris, B. G., Thorpe, W. V., White, K. & Wood, P. B.) 412
Phleum pratense (Timothy grass), biological values and digestibility of (Davies, M., Evans, W. C. & Parr, W. H.) xxiii
Phosphatase, absence from preparations from *Clostridium butyricum* and *Streptococcus* filtrates and amylases of fractions of sheep rumen (Hobson, P. N. & Macpherson, M.) 671
Phosphatase activity of rat tissues, effect of zinc on (Sadasivan, V.) 452
Phosphatases in peripheral nerve during Wallerian degeneration (Hollinger, D. M., Rossiter, R. J. & Upmalis, H.) 652
Phosphate, acid, effect on the anion permeability of erythrocytes (Holton, F. A.) 506
Phosphate assimilation in rats, effect of zinc on (Sadasivan, V.) 452
Phosphate, effect on succinic dehydrogenase (Slater, E. C. & Bonner, W. D. jun.) 185
Phosphate esters, cyclic production from ribonucleic acids (Markham, R. & Smith, J. D.) 552
Phosphate esters, sugar, of milk (McGeown, M. G. & Malpress, F. H.) 606
Phosphate, inorganic, passage across the rumen epithelium of sheep (Parthasarathy, D., Garton, G. A. & Phillipson, A. T.) xvi
Phosphate, inorganic, separation by paper chromatography from adenosine phosphates (Eggleston, L. V. & Hems, R.) 156
Phosphate metabolism of a ciliate (Ryley, J. F.) 483
Phosphate, protection of complement against inactivation by HN2 (Watkins, W. M. & Wormall, A.) 365
Phosphates of brain during *in vitro* metabolism, effects on (McIlwain, H.) 289
6-Phosphogluconate, decarboxylation of (Glock, G. E.) 575
Phosphokinase, creatine, in mammalian brain (Narayanaswami, A.) 295
Phospholipin, fatty acids of, in choline-deficient rats (Siva Raman, C.) 320
Phospholipins, horse liver, comparison with glycerides (Shorland, F. B., Bruce, L. W. & Jessop, S. A.) 400
Phosphomonoesterases, acid and alkaline, in peripheral nerve during Wallerian degeneration (Hollinger, D. M., Rossiter, R. J. & Upmalis, H.) 652
Phosphopyruvic acid in milk (McGeown, M. G. & Malpress, F. H.) 606
Phosphoric acid, inhibition of erythrocyte cholinesterase by tri-esters of (Aldridge, W. N. & Davison, A. N.) 663
Phosphorus compounds in bone marrow and spleen, change in content caused by ionizing radiation (Lutwak-Mann, C.) 356
Phosphorus compounds in the cell (Davidson, J. N. & Smellie, R. M. S.) 594, 599
Phosphorus isotope ^{32}P contamination of neutron-irradiated sodium chloride (Ennor, A. H. & Rosemberg, H.) 591
Phosphorus isotope ^{32}P, determination in animal tissues (Ennor, A. H. & Rosenberg, H.) 591
Phosphorus isotope ^{32}P in vitamin B_{12} (Smith, E. Lester, Hockenhull, D. J. D. & Quilter, A. R. J.) 387
Phosphorus isotope ^{32}P, incorporation into the nucleic acid of liver cell fraction (Smellie, R. M. S. & McIndoe, W. M.) xxii
Phosphorus metabolism in bone marrow (Lutwak-Mann, C.) 356
Phosphorylase, muscle, specificity of (Campbell, P. N., Creasey, N. H. & Parr, C. W.) 448

Phosphorylase preparation, muscle, effect of 3-methyl glucose on polysaccharide synthesis from glucose-1-phosphate with (Campbell, P. N.) 444
Phosphorylation of glucose of mammary tissue (Terner, C.) 229
Phosphorylations, coupled, role of carbonium ions as intermediates in (Bentley, R. & Neuberger, A.) 694
Phycomyces blakesleeanus, carotene production by various mutants of (Goodwin, T. W. & Griffiths, L. A.) 499
Phycomyces nitens, carotene production by various mutants of (Goodwin, T. W. & Griffiths, L. A.) 499
Picrates, arginine and lysine, isolation from gelatin (Robson, W. & Selim, A. S. M.) 318
Pigment formation, bile, *in vitro* from catalase and peroxidase (Kench, J. E.) xxvii
Pigment formation, bile, *in vitro* from myoglobin (Kench, J. E. & Gardikas, C.) xv
Pike, vitamins A in the liver of (Cama, H. R., Dalvi, P. D., Morton, R. A., Salah, M. K., Steinberg, G. R. & Stubbs, A. L.) 535
Plasma, determination of cholesterol in (Kenny, A. P.) 611
Plasma proteins, biosynthesis of (Campbell, P. N. & Work, T. S.) 217
Polymerization of cotton seed oil as a co-factor in gastric cancer (Chalmers, J. G.) xxxi
Polynucleotides from ribonucleic acid (Markham, R. & Smith, J. D.) 558
Polypeptide antibiotics, nisin (Berridge, N. J., Newton, G. G. F. & Abraham, E. P.) 529
Polysaccharide synthesis from glucose-1-phosphate, effect of 3-methyl glucose on (Campbell, P. N.) 444
Polysaccharide, synthesis from glucose-1-phosphoric acid (Campbell, P. N., Creasey, N. H. & Parr, C. W.) 448
Polysaccharide A, physico-chemical examination of (Creeth, J. M. & Record, B. R.) 30
Polysaccharides A and C, synergism of mixtures of (Peto, S.) 22
Polysaccharides, hog gastric mucin, virulence-enhancing activity of (Smith, H., Gallop, R. C. & Stanley, J. L.) 15
Porphyria, idiopathic, precursors of porphyrin in the urine in (Herbert, F. K.) xii
Potassium effect on brain phosphates *in vitro* (McIlwain, H.) 289
Potentiometric determination of chloride in biological fluids (Sanderson, P. H.) 502
Propionic acid, metabolism in the rumen of sheep (Sijpesteijn, A. K. & Elsden, S. R.) 41
Protein composition of chick muscle, changes during development (Robinson, D. S.) 621
Protein composition of *Chlorella vulgaris*, effect of age on (Fowden, L.) 310
Protein composition of rat muscle, influence of growth hormone on (Hume, B. J.) xi
Protein deficiency, vitamin A and the resistance of rats to (Moore, T., Sharman, I. M. & Ward, R. J.) xii
Protein fractions separated by electrophoresis in filter paper, direct determination of nitrogen in (Anderson, A. B.) x
Protein in hyaluronic acid (Ogston, A. G. & Stanier, J. E.) 149
Protein molecules, cross-linking of, and complement inactivation (Watkins, W. M. & Wormall, A.) 365
Protein preparations from grass, biological values and digestibilities of (Davies, M., Evans, W. C. & Parr, W. H.) xxiii
Proteins, cross-linking of (Alexander, P., Fox, M., Stacey, K. A. & Smith, L. F.) 177
Proteins, determination of basic groups in (Ellis, S. C. & Pankhurst, K. G. A.) 350
Proteins of chick muscle, fractionation of (Robinson, D. S.) 621
*Proteins of liver cell nuclei and cytoplasmic fractions, incorporation of ^{35}S and ^{14}C into (Leaf, G., McIndoe, W. M. & Smellie, R. M. S.) xxxii
Proteins, serum, electrophoresis on filter paper of (Latner, A. L.) xxxii
Proteins, serum, staining on filter paper with naphthalene black, electrophoresis of (Latner, A. L.) xxix
Protoporphyrin moieties of the haemoglobin of rats and rabbits, incorporation of [α-^{14}C]glycine into (Muir, H. M., Neuberger, A. & Perrone, J. C.) 87
Protozoa, studies on the metabolism of (Manners, D. J. & Ryley, J. F.) 480; (Ryley, J. F.) 483
Pseudo cholinesterase, determination of reaction velocity constants with a reversible inhibitor of (Myers, D. K.) 46
Pseudo cholinesterase of human serum, velocity constants for the reactions with the dimethylcarbamate of (2-hydroxy-5-phenylbenzyl)-trimethylammonium bromide (Myers, D. K.) 46
Pseudomonas fluorescens, oxidation of nicotinic acid by (Pinsky, A. & Michaelis, M.) 33
Pteroylglutamic acid, excretion in health and disease (Girdwood, R. H.) xxvii
Pteroylglutamic acid in the tissues of pernicious anaemia patients (Girdwood, R. H.) 58
Pyridine derivatives, tertiary, detection and identification of (Cuthbertson, W. F. J. & Ireland, D. M.) xxxiv
Pyridine, separation of the homologues of (James, A. T.) 242
Pyrimidine nucleosides as degradation products of ribonucleic acids (Markham, R. & Smith, J. D.) 558
Pyrimidine-nucleotides, digestion by ribonuclease (Markham, R. & Smith, J. D.) 552
Pyridoxine metabolism, relation with that of tryptophan, in rat (Dalgliesh, C. E.) 3
Pyruvate formation in mammary tissue (Terner, C.) 229

Q-Enzyme, absence from preparations from *Clostridium butyricum* and *Streptococcus* filtrates and amylases of fractions of sheep rumen (Hobson, P. N. & Macpherson, M.) 671
Quinidine and quinine, action of sheep liver homogenates on (Frazer, G. P. & Kermack, W. O.) xxvi
Quinoxalinols as derivatives of keto acids (Hockenhull, D. J. D. & Floodgate, G. D.) 38

Rabbit, acids in hair grease of (Brouwer, E. & Nijkamp, H. J.) 54
Rabbit, formation of a mercapturic acid from 2:3:5:6-tetrachloro-nitrobenzene in (Bray, H. G., Hybs, Z., James, S. P. & Thorpe, W. V.) xviii
Rabbit, glycogenolytic-factor content of pancreatic extracts from (Audy, G. & Kerly, M.) 77
Rabbit, metabolism of anthranilic acid in (Charconnet-Harding, F., Dalgliesh, C. E. & Neuberger, A.) vii
Rabbits, lead-treated, fate of intravenously administered coproporphyrin III in (Weatherall, M.) 683
Radiomimetic compounds, reactivity of (Alexander, P., Fox, M., Stacey, K. A. & Smith, L. F.) 177
Raper, Henry Stanley, (1882–1951) Obituary notice (Kendal, L. P.) 353
Rat, 7-dehydrocholesterol in the sexual organs of (Moore, T. & Ward, R. J.) v
Rat, effect of choline deficiency on the fatty acids of liver and body lipids in (Siva Raman, C.) 320
Rat, effect of salicylate on the glycosuria and hyperglycaemia induced by cortisone in (Smith, M. J. H.) 649
Rat, fatty acid synthesis by mammary gland slices (Balmain, J. H., Folley, S. J. & Glascock, R. F.) 301
Rat, free amino-acids occurring in the body tissues and blood of (Walker, D. M.) 679
Rat, glycogenolytic-factor content of pancreatic extracts from (Audy, G. & Kerly, M.) 77

Rat, metabolism of anthranilic acid in (Charconnet-Harding, F., Dalgliesh, C. E. & Neuberger, A.) vii
Rat, relation between pyridoxine and tryptophan metabolism in (Dalgliesh, C. E.) 3
Rat, riboflavin and tryptophan metabolism in (Charconnet-Harding, F., Dalgliesh, C. E. & Neuberger, A.) vii
Rats, dialuric acid haemolysis test for vitamin E deficiency in (Heard, D. H., Moore, T. & Sharman, I. M.) i
Rats, effect of 3-methyl glucose on the glycogen content of the livers of (Campbell, P. N. & Young, F. G.) 439
Rats, resistance to protein deficiency, effect of vitamin A on (Moore, T., Sharman, I. M. & Ward, R. J.) xii
Redox reaction of catalase intermediate compounds (George, P.) xix
Reducing substances in bone marrow and spleen change in content caused by ionizing radiation (Lutwak-Mann, C.) 356
Resin, ion-exchange, separation of ampholytes from other constituents in urine by (Westall, R. G.) 638
Respiration, effect of malononitrile on (Stern, J., Weil-Malherbe, H. & Green, R. H.) 114
Respiratory quotient during nicotinic acid oxidation (Pinsky, A. & Michaelis, M.) 33
Retina, carbohydrate metabolism in (Terner, C.) 229
Retinene$_1$, Oppenauer oxidation of (Cama, H. R., Field, A. C., Glover, J., Morton, R. A. & Salah, M. K.) 548
Retinene$_2$, conversion *in vivo* and *in vitro* into vitamin A$_2$ (Cama, H. R., Dalvi, P. D., Morton, R. A. & Salah, M. K.) 542
Retinene$_2$, preparation and properties of (Cama, H. R., Dalvi, P. D., Morton, R. A., Salah, M. K., Steinberg, G. R. & Stubbs, A. L.) 535
Retinene$_2$, properties of (Cama, H. R., Dalvi, P. D., Morton, R. A. & Salah, M. K.) 540
Rhodanese activity, effect of malononitrile on (Stern, J., Weil-Malherbe, H. & Green, R. H.) 114
Riboflavin metabolism in the rat (Charconnet-Harding, F., Dalgliesh, C. E. & Neuberger, A.) vii
Ribonuclease, action on ribonucleic acid (Markham, R. & Smith, J. D.) 552, 558
Ribonuclease, ultraviolet absorption spectrum of (Shugar, D.) 142
Ribonucleic acid, end groups in (Markham, R. & Smith, J. D.) 565
Ribonucleic acid metabolism in different fractions of the liver cell, influence of energy intake on (Wikramanayake, T. W., Heagy, F. C. & Munro, H. N.) xxxii
Ribonucleic acid, separation by ionophoresis on paper of the constituent nucleotides of (Davidson, J. N. & Smellie, R. M. S.) 594
Ribonucleic acid, structure of (Markham, R. & Smith, J. D.) 552, 558, 565
Ribonucleic acid, the core of (Markham, R. & Smith, J. D.) 565
*Ribonucleic acids of liver cell nuclei and cytoplasmic fractions, composition of (Crosbie, G. W., & Smellie, R. M. S.) xxxii
Ribonucleotide fraction of liver tissue, incorporation of radioactive phosphorus into (Davidson, J. N. & Smellie, R. M. S.) 599
Ribose-5-phosphate, formation and breakdown of by liver fractions (Glock, G. E.) 575
Rumen epithelium of sheep, passage of inorganic phosphate across (Parthasarathy, D., Garton, G. A. & Phillipson, A. T.) xvi
Rumen of sheep, amylases of *Clostridium butyricum* and a *Streptococcus* isolated from (Hobson, P. N. & Macpherson, M.) 671
Rumen of sheep, metabolism of succinic acid in (Sijpesteijn, A. K. & Elsden, S. R.) 41
Ruminants, fatty acid synthesis by mammary gland slices (Balmain, J. H., Folley, S. J. & Glascock, R. F.) 301
Saccharate, β-glucuronidase and (Levvy, G. A.) 464
Saccharolactone, as inhibitor of β-glucuronidase (Levvy, G. A.) 464
Salicylate, effect on the glycosuria and hyperglycaemia induced by cortisone in the normal rat (Smith, M. J. H.) 649
Sarmentogenin, distribution in seeds of *Strophanthus* spp. (Bush, I. E. & Taylor, D. A. H.) 643
Saroplasmic protein of chick embryo development (Robinson, D. S.) 633
Sarverogenin, distribution in seeds of *Strophanthus* spp. (Bush, I. E. & Taylor, D. A. H.) 643
Scanning device, semi-automatic, for quantitative electrophoresis of serum proteins on filter paper, conversion of the Spekker absorptiometer to (Latner, A. L.) xxxii
Skin, human, sebum on (Hodgson-Jones, I. S. & Wheatley, V. R.) 460
Sclerotiorin, a metabolic product of *Penicillium multicolor* G.-M. and P. (Birkinshaw, J. H.) 283
Sebum, human, constituents of unsaponifiable matter of (Mackenna, R. M. B., Wheatley, V. R. & Wormall, A.) 161
Sebum, human, spectrophotometric studies of (Festenstein, G. N. & Morton, R. A.) 168
Sebum, studies of and methods of estimating (Hodgson-Jones, I. S. & Wheatley, V. R.) 460
Secretin, preparation of (Jorpes, J. E. & Mutt, V.) 328
Sedimentation of H substance (Kekwick, R. A.) 259
Sedimentation of human albumins (Charlwood, P. A.) 279
Sedimentation of the polysaccharide 'A' from hog gastric mucin (Creeth, J. M. & Record, B. R.) 30
Sepia officinalis, D-amino-acid oxidase in the liver of (Blaschko, H. & Hawkins, J.) 306
Sepia officinalis, free amino-acids of (Lewis, P. R.) 330
Serine, biosynthesis from glycine (Campbell, P. N. & Work, T. S.) 217
Serum albumin, action of radiomimetic agents on (Alexander, P., Fox, M., Stacey, K. A. & Smith, L. F.) 177
Serum, application of a preparative paper electrophoresis technique to vitamin B$_{12}$ binding in (Latner, A. L., Raine, L., Ross, G. I. M. & Ungley, C. C.) xxxiii
Serum bilirubin, estimation of (Patterson, J., Swale, J. & Maggs, C.) 100
Serum cholinesterase, horse, hydrolysis of succinylcholines by (Whittaker, V. P. & Wijesundera, A.) 475
Serum, determination of cholesterol in (Kenny, A. P.) 611
Serum, pseudo cholinesterase, human (Myers, D. K.) 46
Serum proteins, electrophoresis on filter paper of (Latner, A. L.) xxxii
Serum proteins, staining on filter paper with naphthalene black, electrophoresis of (Latner, A. L.) xxix
Sexual organs of the rat, 7-dehydrocholesterol in (Moore, T. & Ward, R. J.) v
Sheep, amylases of *Clostridium butyricum* and a *Streptococcus* isolated from the rumen of (Hobson, P. N. & Macpherson, M.) 671
Sheep faeces, lignin in (Meyer, H. & Bondi, A.) 95
Sheep, fatty acid synthesis by mammary gland slices (Balmain, J. H., Folley, S. J. & Glascock, R. F.) 301
Sheep liver homogenates, action on quinine, quinidine, cinchonine and cinchonidine (Fraser, G. P. & Kermack, W. O.) xxvi
Sheep, metabolism of succinic acid in the rumen of (Sijpesteijn, A. K. & Elsden, S. R.) 41
Sheep, passage of inorganic phosphate across the rumen epithelium of (Parthasarathy, D., Garton G. A. & Phillipson, A. T.) xvi
Sheep tissues, metabolism *in vitro* of *n*-valeric acid and some branched-chain acids by (Annison, E. F. & Pennington, R. J.) ix
Skin secretions (hair grease) of man and various animal species, voltatile acids in (Brouwer, E. & Nijkamp, H. J.) 54

Sodium, determination in bone (Davies, R. E., Kornberg, H. L. & Wilson, G. M.) xv
Sodium isotope, ^{24}Na, determination in animal tissues (Ennor, A. H. & Rosenberg, H.) 591
Soil bacteria, metabolism of the mono-hydroxybenzoic acids by (Walker, N. & Evans, W. C.) xxiii
Sorbitol antiketogenesis of fatty acids (Blakley, R. L.) 269
Spekker absorptiometer, conversion to a semi-automatic scanning device for quantitative electrophoresis of serum proteins on filter paper (Latner, A. L.) xxxii
Spleen, changes in the content of phosphorus compounds and reducing substances in, caused by ionizing radiation (Lutwak-Mann, C.) 356
Splenectomy, effect on constituents of bone marrow and spleen (Lutwak-Mann, C.) 356
Squalene and its oxidation products in human sebum (Mackenna, R. M. B., Wheatley, V. R. & Wormall, A.) 161
Starch-degrading enzymes, isolation from cultures of sheep rumen strains of *Clostridium butyricum* and a *Streptococcus* grown in a media containing dissolved starch (Hobson, P. N. & Macpherson, M.) 671
Statistical examination of multiple-dose assays (Please, W. N.) 75
Steroids, formaldehydogenic cortical, hydrolysis and extraction of (Bayliss, R. I. S.) 63
Steroids, influence on citrate metabolism (Grant, J. K. & Taylor, W.) xxiv
Steroids, 20-methyl, method for the quantitative determination in urinary extracts of (Cox, R. I.) 339
Sterols in human sebum (Mackenna, R. M. B., Wheatley, V. R. & Wormall, A.) 161
Storage in the frozen and dried states, effect on the stability of lipovitellin (Lea, C. H. & Hawke, J. C.) 105
Streptococcus agalactiae, activity of nisin against (Berridge, N. J., & Newton, G. G. F. & Abraham, E. P.) 534
Streptococcus faecalis, growth factors for, in the tissues of pernicious anaemia patients and controls (Girdwood, R. H.) 58
Streptococcus isolated from the rumen of sheep, amylases of (Hobson, P. N. & Macpherson, M.) 671
Streptomyces griseus, incorporation of ^{60}Co in vitamin B_{12} by fermentation with (Smith, E. Lester, Hockenhull, D. J. D. & Quilter, A. R. J.) 387
Streptomyces griseus, vitamins B_{12} from (Smith, E. Lester, Fantes, K. H., Ball, S., Waller, J. G., Emery, W. B., Anslow, W. K. & Walker, A. D.) 389
Strophanthidin and Strophanthidol, distribution in seeds of *Strophanthus* spp. (Bush, I. E. & Taylor, D. A. H.) 643
Strophanthus spp., distribution of cardiac aglycones in (Bush, I. E. & Taylor, D. A. H.) 643
Substance P, distinction of 5-hydroxytryptamine from (Dalgliesh, C. E., Toh, C. C. & Work, T. S.) xxx
Succinic acid, chromatography of (Whittaker, V. P. & Wijesundera, S.) 475
Succinic acid, formation by a ciliate (Ryley, J. F.) 483
Succinic acid, metabolism in the rumen of sheep (Sijpesteijn, A. K. & Elsden, S. R.) 41
Succinic dehydrogenase activity of ciliate homogenate (Ryley, J. F.) 483
Succinic dehydrogenase, spectrophotometric method for measuring the activity of (Slater, E. C. & Bonner, W. D. jun.) 185
Succinic oxidase system, effect of fluoride on (Slater, E. C. & Bonner, W. D. jun.) 185
Succinylcholines, chromatography of (Whittaker, V. P. & Wijesundera, S.) 475
Succinylcholines, effect of eserine on the enzymic hydrolysis of (Whittaker, V. P. & Wijesundera, S.) 475
Succinylcholines, hydrolysis of horse serum cholinesterase (Whittaker, V. P. & Wijesundera, S.) 475
Sugar acids, inhibition of β-glucuronidase by (Levvy, G. A.) 464
Sugar-phosphate esters of milk (McGeown, M. G. & Malpress, F. H.) 606
Sulphanilamide, action on erythrocyte carbonic anhydrase (Holton, F. A.) 506
Sulphate formation in the rabbit (Bray, H. G., Humphris, B. G., Thorpe, W. V., White, K. & Wood, P. B.) 419
Sulphite, effect on sulphate conjugation in rabbit (Bray, H. G., Humphris, B. G., Thorpe, W. V., White, K. & Wood, P. B.) 419
*Sulphur isotope, ^{35}S, incorporation into the proteins of liver cell nuclei and cytoplasmic fractions (Leaf, G., McIndoe, W. M. & Smellie, R. M. S.) xxxii
Sulphur isotope, radioactive, biosynthesis of L-cystine and L-methionine labelled with (Williams, R. B. & Dawson, R. M. C.) 314
Sulphuric acid, conjugation of phenols with (Bray, H. G., Humphris, B. G., Thorpe, W. V., White, K. & Wood, P. B.) 419
Suramin, effect on β-glucuronidase activity (Smith, E. E. B. & Mills, G. T.) i
Synergism of mixtures of polysaccharides A and C (Peto, S.) 22
Synovial fluid, ox, hyaluronic acid of (Ogston, A. G. & Stanier, J. E.) 149

Taurine in invertebrate nerves (Lewis, P. R.) 330
2:3:5:6-Tetrachloronitrobenzene, formation of a mercapturic acid in the rabbit from (Bray, H. G., Hybs, Z., James, S. P. & Thorpe, W. V.) xviii
Tetrahymena pyriformis, glycogen of (Manners, D. J. & Ryley, J. F.) 480
Tetrahymena pyriformis, metabolism of (Ryley, J. F.) 483
Thermal burns, effect on constituents of bone marrow and spleen (Lutwak-Mann, C.) 356
Thiocyanate, formation from malononitrile and thiosulphate by tissues (Stern, J., Weil-Malherbe, H. & Green, R. H.) 114
Thiocyanates, alkyl, effect on tissue metabolism (Stern, J., Weil-Malherbe, H. & Green, R. H.) 114
Thiosulphate, effect on malononitrile metabolism (Stern, J., Weil-Malherbe, H. & Green, R. H.) 114
Thiosulphate, effect with malononitrile on respiration (Stern, J., Weil-Malherbe, H. & Green, R. H.) 114
Thiosulphate, protection of complement against inactivation by HN_2 (Watkins, W. M. & Wormall, A.) 365
Thomas-Mitchell method, biological values and digestibilities of some grasses, and protein preparations from young and mature species by (Davies, M., Evans, W. C. & Parr, W. H.) xxiii
Thrombin, action on fibrinogen (Lorand, L. & Middlebrook, W. R.) 196
Thyrotrophin, effect on the metabolism of carotenoids and vitamin A in the lactating cow (Chanda, R., Clapham, H. M. & Owen, E. C.) xvii
Timothy grass (*Phleum pratense*), biological values and digestibility of (Davies, M., Evans, W. C. & Parr, W. H.) xxiii
Tocopherol in human sebum (Mackenna, R. M. B., Wheatley, V. R. & Wormall, A.) 161; (Festenstein, G. N. & Morton, R. A.) 168
Tocopherol mixtures, quantitative analysis by paper chromatography (Brown, F.) 523
Transaminase and renal ammonia production in the rat (Davies, B. M. A. & Yudkin, J.) 407
Transaminase system and the deamination of alanine in the kidney of a rat (Davies, B. M. A. & Yudkin, J.) 407
Trimethylamine, gas-liquid partition chromatography of (James, A. T., Martin, A. J. P. & Smith, G. Howard) 238

Tris(ethyleneimino)triazine, cross-linking of serum albumins by (Alexander, P., Fox, M., Stacey, K. A. & Smith, L. F.) 177
Tritium, combustion technique for the assay of (Glascock, R. F.) 699
Tryptophan metabolism in the rat (Charconnet-Harding, F., Galgliesh, C. E. & Neuberger, A.) vii
Tryptophan metabolism, relation with that of pyridoxine, in rat (Dalgliesh, C. E.) 3
Tryptophan-tryptophanase adaptation, changes in the nucleic acid fractions during (Hakim, A. A. & Happold, F. C.) xxv
Tyrosine content of ribonuclease (Shugar, D.) 142
Tyrosine, terminal, as residues of fibrin and fibrinogen (Lorand, L. & Middlebrook, W. R.) 196

Udder of lactating goat, incorporation of [*carboxy*-^{14}C]-acetate into lactose and glycerol by (Popják, G., Glascock, R. F. & Folley, S. J.) 472
Ultracentrifugal sedimentation, use in purification of hyaluronic acid (Ogston, A. G. & Stanier, J. E.) 149
Ultrafiltration, use in purification of hyaluronic acid (Ogston, A. G. & Stanier, J. E.) 149
Undecylenate, dehydrogenation by suspensions from rat liver homogenates (Blakley, R. L.) 269
[^{15}N]Urea, metabolism in cats (Kornberg, H. L. & Davies, E. R.) 345
Uric acid, oxidation by uricase (Bentley, R. & Neuberger, A.) 694
Uricase, mechanism of the action of (Bentley, R. & Neuberger, A.) 694
Urinary extracts, method for quantiative determination of C_{21} 17:20-dihydroxy-20-methylsteroids in (Cox, R. I.) 339
Urine, amino-acids and other ampholytes of (Westall, R. G.) 638
Urine in idiopathic porphyria, precursors of porphyrin in (Herbert, F. K.) xii
Urine, presence of coproporphyrin III in, during lead poisoning (Weatherall, M.) 683

n-Valeric acid, metabolism by sheep tissues *in vitro* (Annison, E. F. & Pennington, R. J.) ix
Valine of haemoglobin, isotopic content of, after incorporation of [α-^{14}C]glycine (Muir, H. M., Neuberger, A. & Perrone, J. C.) 87
Velocity constants, reaction, determination with a reversible inhibitor of pseudo cholinesterase (Myers, D. K.) 46
Viridicatin, isolation and chemical properties of (Cunningham, K. G. & Freeman, G. G.) xxvi
Virulence-enhancing activity of bacterial polysaccharides (Smith, H., Gallop, R. C. & Stanley, J. L.) 15
Virulence-enhancing activity of heparin (Smith, H., Gallop, R. C. & Stanley, J. L.) 15
Virulence-enhancing activity of hog gastric mucin polysaccharides (Smith, H., Gallop, R. C. & Stanley, J. L.) 15
Virulence-enhancing factor, identification of component as heparin (Smith, H., Gallop, R. C., Harris-Smith, P. W. & Stanley, J. L.) 23
Vision chemistry, properties of retinene$_2$ and (Cama, H. R., Dalvi, P. D., Morton, R. A. & Salah, M. K.) 540
Vitamin A and the resistance of rats to protein deficiency (Moore, T., Sharman, I. M. & Ward, R. J.) xii
Vitamin A, effect on thyrotrophin on the metabolism in the lactating cow (Chanda, R., Clapham, H. M. & Owen, E. C.) xvii
Vitamin A in the milk of cows and goats during lactation, partition of (Chanda, R.) ii
Vitamin A, studies in (Cama, H. R., Dalvi, P. D., Morton, R. A. & Salah, M. K.) 540, 542
Vitamin A_1, Oppenauer oxidation of (Cama, H. R., Field, A. C., Glover, J., Morton, R. A. & Salah, M. K.) 548
Vitamin A_2, conversion into retinene$_2$ (Cama, H. R., Dalvi, P. D., Morton, R. A., Salah, M. K., Steinberg, G. R. & Stubbs, A. L.) 535
Vitamin A_2, probable structure of; formation from retinene$_2$ (Cama, H. R., Dalvi, P. D., Morton, R. A. & Salah, M. K.) 542
Vitamin A_2, sources of (Cama, H. R., Dalvi, P. D., Morton, R. A., Salah, M. K., Steinberg, G. R. & Stubbs, A. L.) 535
Vitamin B_{12}, absence from the tissues of pernicious anaemia patients (Girdwood, R. H.) 58
Vitamin B_{12} binding in serum, application of a preparative paper electrophoresis technique to (Latner, A. L., Raine, L., Ross, G. I. M. & Ungley, C. C.) xxxiii
Vitamin B_{12}, isolation of (Smith, E. Lester, Fantes, K. H., Ball, S., Waller, J. G., Emery, W. B., Anslow, W. K. & Walker, A. D.) 389
Vitamin B_{12}-like factors from calf faeces, properties of (Ford, J. E., Kon, S. K. & Porter, J. W. G.) viii
Vitamins B_{12}, neutral, basic and acidic (Smith, E. Lester, Ball, S. & Ireland, D. M.) 395
Vitamin B_{12}, neutron irradiation of (Smith, E. Lester) 384
Vitamin B_{12}, radioactive, biosynthesis of (Smith, E. Lester, Hockenhull, D. J. D. & Quilter, A. R. J.) 387
Vitamin E deficiency in rats, dialuric acid haemolysis test for (Heard, D. H., Moore, T. & Sharman, I. M.) i
Vitamin E, estimation of (Brown, F.) 523
Vitamins, nomenclature of 1
Volatile fatty acids formed during the fermentation of mixtures of minced grass and water, estimation of (Barnett, A. J. G. & Duncan, R. E. B.) xvii

Wallerian degeneration, chemical studies of peripheral nerve during (Hollinger, D. M., Rossiter, R. J. & Upmalis, H.) 652; (Hollinger, D. M. & Rossiter, R. J.) 659
Water exchange in horse erythrocytes (Holton, F. A.) 506
Water, influence on the stability of lipovitellin (Lea, C. H. & Hawke, J. C.) 105
Whey proteins, biosynthesis of (Campbell, P. N. & Work, T. S.) 217
Wool, action of radiomimetic agents on (Alexander, P., Fox, M., Stacey, K. A. & Smith, L. F.) 177

X-rays, effect on constituents of bone marrow and spleen (Lutwak-Mann, C.) 356
Xanthine oxidase activity, effect of light on (Siegel, S. M. & Weintraub, R. L.) 324
Xanthine oxidase, oxidation of Mn^{2+} by hydrogen peroxide from (Kenten, R. H. & Mann, P. J. G.) 125
Xanthurenic acid as a tryptophan metabolite (Dalgliesh, C. E.) 3
Xylose, fermentation by *Escherichia coli* (Heald, P. J.) 378

Yeast, effect of 3-methyl glucose on the fermentation of glucose by (Campbell, P. N.) 444
Yeast hexokinase in metabolism of mammary gland slices (Terner, C.) 229
Yeast, use in biosynthesis of ^{35}S-labelled amino-acids (Williams, R. B. & Dawson, R. M. C.) 314

Zinc, studies in the biochemistry of (Sadasivan, V.) 452
